Program Summary:

The owners of ATTL have over 26 years of experience in providing quality teaching techniques to students. ATTL has had a positive impact on increasing student achievement toward meeting state achievement standards in math and language arts/reading. Based on pre and post assessment data, 82% of students showed learning gains of 29%. Tutoring sessions are 1-2 hours per session and range from 2-5 sessions per week depending on the Individualized Student Plan. ATTL uses explicit teaching, which is a systematic method for presenting material in small steps, pausing to check for student understanding and eliciting active and successful participation from students. ATTL uses the Learning Horizons and Steck Vaughn curriculum for math and language arts. These curriculums are developed by professional educators and psychologists and teach children important educational concepts. All grade level specific lesson plans and direct instruction components are directly aligned with Georgia Performance and national standards.

Program Summary:

Educate! Motivate! Celebrate! We believe if the child is in our seat we can help them. Our program is designed with the highest regard for helping struggling learners in Georgia. We tutor students in Kindergarten through 8th grade in reading or math. Our professionally trained tutors, most of whom are certified teachers from local school and community are trained to ensure that our students are always supervised. We are in our fifth year of operation. Our program is housed mainly in the local schools. Our classes are held two days a week for 90 minutes each day and we tutor in small groups and large groups. A key component of our program is goal setting with all parties; parents and school personnel participate following an examination of available school data and an analysis of a diagnostic pretest. With this information, we develop an Individual Student Plan (ISP) with specific goals and individualized curriculum for the student. We have aligned our curriculum and the master plan of each School District we serve. We present a progress report monthly to parents, teachers and school districts. Our company administers a post test to determine student growth and curriculum strengths and weaknesses. We are happy to report, there are significant reading and math gains in every school district we serve. Our company conducts initial and on-going training for tutors. We celebrate learning at the end of the program by inviting parents, tutors, and students to a Completion Ceremony. At this ceremony we recognize each child's work ethic and regular attendance. Our tutoring company takes pride and counts it a privilege to provide supplemental services in Reading and Math to the students in the State of Georgia.

Cost to District (per hour): \$85.00

Program Summary:

The leadership and team of AAA+Learning Solutions has a thirty-five year plus experience base and a demonstrated record of effectiveness as evidenced by the increase in the percent of students scoring at proficiency levels in reading, math and writing, over the past 8 years. Serving grade levels 1-8, tutoring session are organized to support ratios of 1:1-8/non-computer-based instruction and 1:1-10/computer-based instruction with 2-3, 60 minute sessions per week delivered after school hours at the school site.

The Response To Intervention (RTI) approach guides the instructional model and only highly qualified, certified teachers deliver explicit instruction. Data, gathered through appropriate screening, and diagnostic progress monitoring, is analyzed and adjustments to instruction are made as needed. This process ensures that student-learning goals are realistic, attainable and achieved. Instructional materials, equipment, and software used are coordinated with the district, classroom program and aligned to the new Georgia Performance Standards.

Program Summary:

#1 in Learning (#1L) provides tutoring for K-12 students in mathematics, reading, and English language arts in 7 states. Our desire is to groom the character and learning abilities of our students in order to help them meet and conquer the challenges of their educational career. Our program has been successfully helping students increase academic performance on class work, homework, and standardized tests for over 6 years. #1L students reflect an increase of at least 1 grade level when completing our program. We work with basic needs, special needs, and English Language learners through high quality instruction, 1 on 1 and small group settings, and motivational support. We schedule sessions in your home, at school, a local community center, or at a local library.

Program Summary:

1 Life: Career/College Academic Empowerment is a program of Prime Educational Services focusing on student's academic abilities regardless if they are at the lowest or highest level. In modern, technology-equipped facilities in Fayetteville, our teachers have 20+ years experience of providing excellence in improving a student's confidence so a career - college achievement, is possible. We provide tutoring, aptitude, academic assessment, career/college preparatory, entrance examinations, college/technical school selection and entrance applications.

1Life serves up to eight students in each session tailored to address specific academic areas. Each hour-long bi-weekly session (or two hour sessions on Saturday) includes instruction in study skills, remediation of academic weaknesses, review of foundational skills/concepts, preparation of students for content to be studied in the regular classroom, computer reinforcement, and acceleration for students performing at or above grade level. Instruction will be offered in reading/language arts and mathematics (K-12), science and social studies (9-12).

Cost to District (per hour):	\$59

Program Summary:

1 to 1 Tutor provides live, online, one on one Mathematics tutoring; our tutors communicate with students via a headset, microphone and cyber-tablet, which are provided to students free of charge. If a student does not have a computer and/or high-speed internet connection we will provide them for the duration of tutoring. Tutoring sessions generally take place 2-3 times per week and each session typically 1 hour in length. We assess student needs with both a Study Island curriculum grade specific assessment test and a company developed exam to set concrete goals with a timetable that is guided by the number of hours a student will be in our program. 1 to 1 Tutor has been providing online Mathematics tutoring since 2007. Our reserach shows that 76% of our SES students show significant improvement in academic achievement on their State test scores.

---	---

Program Summary:

Our program was developed by a former School Counselor/Graduation Coach/Curriculum Assistant Principal with over 25 years developing curriculum for “at-potential” students. With 9 years of collective service as an SES provider we have a proven record of success. We promote hands-on instruction and higher order thinking skills. Our tutors consist of mostly teachers who receive additional instructional and procedural training through 4 Our Kids. Materials used will include workbooks correlated to the GPS, additional textbooks, and resources which allow for adequate practice of skills. Our program is flexible to meet the schedules of parents and students. Services are provided at schools, community locations, or in-home. Transportation may be arranged for some locations. Group sizes are 1:1 up to 8:1. Tutoring is held between the hours of 3-9:00 p.m. 2 hours per day on weeknights and from 9 a.m. – 6 p.m. for up to 4 hours on weekends and school holidays.

Program Summary:

Learning Solutions, has been serving students in the Atlanta area for 19 years. The longevity, the return of students, and the improvement of academics demonstrate the effectiveness of the tutorial program. The UGA/DOE 2007-2008 survey analyzed the test scores of students served by Learning Solutions and showed that in math, more than fifty percent of the Learning Solutions SES students scored higher on the State CRCT than the comparison group. The Survey showed that in reading, a greater percentage of Learning Solutions SES students moved to a higher performance level on the State CRCT than the comparison group. Tutorial sessions are 1.5 hours (bi-weekly) with choices of days and times (Monday-Thursday, 4:00 p.m. to 8:00 p.m. / Saturday 10:00 a.m. to 12:00 p.m.). Flexibility is necessary. Parents who are the sole source of transportation often have schedules that create hardships. These schedules must be addressed. The instruction at Learning Solutions is based on the results of a reading/L.A. and math Basic Skills Inventory given to each student and the review of each student's CRCT. Using this information, the student is prescribed an individualized curriculum with goals set to improve weak areas as shown on the BSI and CRCT. The curriculum is designed to improve grades, CRCT scores, and aligns with GPS. An integrated approach is used in reading, to address word analysis, vocabulary, comprehension and study skills. The math curriculum utilizes a balanced mathematics approach where basic knowledge, operational skills, and the ability to make application are equally fostered. The curriculum is computer based and monitored by teachers with advanced degrees who are continually helping the students (5:1 ratio). Learning Solutions is located in a quiet, accessible plaza. There are 18 computer stations and 5 work stations. All instructional materials are provided. Learning Solutions has been a Georgia SES provider for seven years.

Program Summary:

A Love of Learning Tutoring has assisted students in metropolitan Atlanta since 2007. We began as a faith-based nonprofit and have provided free and low-cost tutoring for students in low income communities for two years. Our purpose is to help students reach their highest potential by identifying their academic strengths and weaknesses, finding opportunities for improvement, and making the best use of their time to help them achieve and excel. Students attend for an average of two hours per day, two days per week and Saturday's up to 4-hrs. Well-qualified tutors are carefully selected and receive training in the best teaching practices. The curriculum is nationally recognized for effectiveness. When students enroll with Love of Learning Tutoring, staff administers a test all books and materials are provided for FREE as well as FREE transportation offered at selected sites.

Program Summary:

A to Z In-Home Tutoring provides in person, one-on-one instruction in the student's home/community setting or in small groups of 3-5 students. Our tutors work with children in Language Arts or Math. As one of the largest SES providers in Georgia for the past seven years, we are very experienced. Our curriculum is research-based and includes pre-testing to identify deficiencies in skill sets so that tutoring services are 100% customized and individualized to the student. We also use local and state assessments as well as parent and teacher recommendations to develop the goals on the student learning plan. A post-test is given to measure overall gains of the child and the new skills they have achieved. Strong teaching backgrounds and a comprehensive understanding of children's needs enable our tutors to develop learning skills, boost confidence, and enhance motivation. The tutoring schedule is flexible and determined by the student's family availability.

Program Summary:

A+ Learning Academy (APLA) employs highly-trained instructional leaders who work to ensure that the goals of the No Child Left Behind Act are met. The APLA staff is comprised of skilled professionals possessing over seventeen years of educational experience and who have had remarkable success in closing achievement gaps with children of all learning styles. By using the latest educational technology paired with research-proven strategies each student is ensured a custom tailored learning experience. Students' progress is monitored on an ongoing basis through various assessments such as The Diagnostic Reading Assessment (DRA), and Running Records. Our tutors work with children in Reading, Language Arts, and Math. The academy was founded on the belief that education shared with care and nurturing provides an awakening of the mind, rendering it able to more readily absorb and apply what is learned. Through a proper educational process, students are not developed as robots but instead, as critically-thinking individuals who are able to apply their learning in a way that uniquely expresses and defines who they are. We believe that success can be obtained, regardless of ethnicity and social status. APLA is committed to staffing employees with the ability to inspire all students to strive for their personal best. We provide tutoring before and after school, Saturdays and during the summer. Each session is 1.5 hours in length. We believe at APLA that learning should be fun, interactive and exciting. Tutoring schedules are arranged collaboratively with parents. We offer flexible scheduling options to ensure that all students are given the opportunity to obtain quality tutoring services. The founders of APLA believe that, while every child may not learn at the same pace, if the right tools are provided to arouse inner motivations, much can be accomplished in the learning process.

Program Summary:
 Challenging Failure Tutoring specializes in helping students with learning challenges. Based on over 30 teaching experience, we understand that not everyone learns the same way or at the same rate. Our tutors are experts in providing instruction in different ways. We pre test students to identify weaknesses and develop an instructional plan based on what they are expected to know for testing. Only after they have mastered one concept, do we move on to the next. Our average student showed a 93 point increase between their pre and posttest. Our Satisfaction Survey showed 100% of our students believe our tutoring improved their grades and 75% of parents would use our services again. Our tutoring groups of no more than 4 students per tutor meet one to two times a week for up to 2 hours at locations and on the days/times that are convenient. Materials are provided free.

Program Summary:

Abacus In-Home Tutoring, Inc. delivers individualized instruction in English/language arts, reading and mathematics to all students in Kindergarten through twelfth grade, including those with disabilities and English language learners. For our in-home program, tutors travel directly to the student's home at times convenient to families. For our small group program (no more than 5 students per instructor), sessions are provided directly after school hours at safe, convenient locations that are accessible by public transportation. Abacus uses an individualized teaching model, emphasizing one-on-one attention to address students' unique educational needs. Abacus will utilize pre-assessment results and input from school staff and parents to create a customized learning plan for each student. Tutorial sessions are typically 1 to 3 hours long, and usually take place 1 to 3 times per week. All materials are provided by Abacus. Students who complete the Abacus program show an average of a year's worth of growth!

---	--

Program Summary:

ABOUTFACE! Reading has been teaching reading to students throughout the Southeast for 11 years and has been an SES Provider in Georgia for four years. Our reading lessons are designed using the five scientifically-based strategies recommended by the National Reading Panel to increase reading skills. Every student is pre-tested to determine their unique needs and an Individualized Learning Plan is developed with teacher and parent input. Then, leveled books are chosen that reflect each student's current reading abilities. As students' mastery increases, additional tests pinpoint remaining skill gaps. Learning Plans are then updated to fill those gaps. Finally, post-tests are administered to gauge student improvement. Each child receives approximately 20 hours of tutoring, usually 1 hour sessions, twice weekly. All of our pupils will move to the next reading level or higher. Every child keeps every book they read. Lessons are held in LEA's, churches, libraries or other public area. We provide all materials including scripted lesson plans, books, word cards, and any other materials needed for the course of instruction.

Program Summary:

Achieve HighPoints CSRA is a Franchise of Achieve HighPoints which is a GA state approved SES provider for the last 4 years. We are an online math tutoring program that helps students in Grades 3 through 12 improve their math skills. We offer students self-paced tutoring aligned to the state curriculum standards. Our program is available 24 hours a day 7 days a week and students are required to complete 4 sessions each week. Each session is of 1 hour duration. Our virtual Math tutors all have degrees in Math or related fields.

Parents have written to us to say that Achieve HighPoints has successfully helped their children improve their math grades significantly. According to the UGA survey, 82.5% students enrolled with us reported that their Math grade improved in school. 87.6% students were overall satisfied with our Tutoring services. 86.6% students will recommend us to their peers and 66.7% of students who tutored with us got a meets or exceeds on their CRCT or EOCT.

Our sessions are either conducted at the school facility or an alternate site such as a Boy & Girls Club, local church etc. We meet with student(s) 2 - 3 times per week in 60 to 90 minute sessions. We focus on small group instruction with a 4:1 ratio. We require a minimum of five (5) students to provide services in a school district.

AST conducts an individual pre assessment and prepares an Individualized Student Plan (ISP) for each child. We use high quality research-based methods and materials in our daily sessions.

We present a Student Progress Report to parents every two weeks. At the conclusion of the program, a post assessment is conducted and a final Student Progress Report is provided to parents.

AST employs a diverse network of certified teachers, retired educators, graduate students and degreed specialists who are committed to helping students be successful.

Student\Tutor Ratio: 8-1

Max. Number of Students (all districts): 1000

Min. Number of Students (each district): 25

Cost to District (per hour): \$60

Program Summary:

Non-Profit Tutoring Service providing:

Custom One-on-One, or Small group tutoring, (less than 8:1), in the student's home or pre-arranged facility. Progress occurs because of the Individualized nature of the program, while supplementing classroom work. Qualified tutors are "matched" to the student in Reading/Language Arts or Math, and are experienced with low income, at-risk students.

Parent insight, teacher feedback, school assessment scores, and Initial Pre-testing form a program blueprint, and tutoring progresses as subject mastery is achieved. Each student receives a custom Individual Student Plan and Goals. Teacher's feedback is requested to assist in preparing a program for each student. Daily Lessons are prepared for each student using Georgia Performance Standards (GPS), and regular Progress Reports are provided every 2 weeks.

Using a final Post-test session, test data is compared to the initial Pre-test to determine improvement for each student.

Sessions traditionally twice per week, not exceeding 2 hours, followed by a consultation each session.

On average, improvement is one letter grade after 3 months. Student achievement improvement has averaged over 25% in Reading; Language Arts; & Math for 4 consecutive years.

Proven results working with at-risk and Low-Income students.

Max. Number of Students (all districts): 750

Min. Number of Students (each district): 40 (open for negotiation with LEA)

Cost to District (per hour): \$55-\$65

Program Summary:

The AchieveResults™ Tutorial program was developed by a former mathematics university professor and middle school math educator, and has a proven record for improving students' academic achievement in reading and mathematics on the CRCT! The president of AchieveResults™ Tutorial has over 21 years experience in education and educational leadership, and AchieveResults™ Tutorial has successfully tutored students in Georgia and other states since 2003. Because of our small group instruction, our Tutors are able to identify and work on students' individual weaknesses, based on Pre-Test results, previous student performance in school, and parental involvement. Student mastery is closely monitored, and parents receive monthly progress reports.

The AchieveResults™ Tutorial program meets 1 ½ to 2 hours after school, twice weekly at students' school (with principal's permission), or at a local public center within the students' community. Saturday tutorials are offered in selected locations. ALL ACHIEVERESULTS™ PROGRAMS ARE TAUGHT WITHIN THE STUDENTS' SCHOOL DISTRICT/ LOCAL COMMUNITY. All instructional materials are provided, and are aligned with the Georgia Performance Standards, and the Common Core State Standards that students must master for success in school and on the CRCT. Staff includes certified, special education, English Language Learner teachers, and retired school administrators.

This tutorial program is FREE for eligible students and FREE TRANSPORTATION is provided at selected tutorial sites. If you are looking for results, count on AchieveResults™ Tutorial. Contact your child's school or call AchieveResults™ at 404-241-0977 for more information.

Program Summary:

Achieving Excellence is a new SES provider offering fun, creative, hands-on activities which sharpen test-taking skills, build self-confidence, and promote positive attitudes. We tutor students in grades 3-12 in Reading, Language Arts, and Mathematics. Our program delivers, research-based instruction that is specifically designed to increase academic achievement. Services are provided in-home, at local library, or community center. Students receive one on one instruction or small group instruction (not to exceed 3 students). Sessions are 1–2 hours in length (Mon-Sun), not to exceed 4 hrs per week. All instructors are either certified teachers or tutoring professionals with many years of experience. Students engage in problem solving and creative learning to expand learning. We accommodate each student's individual needs and learning style(s). Instructional material and resources are aligned with Georgia Performance Standards. Technology and games are integrated in the lessons to increase understanding.

Program Summary:

Alpha Test Prep's use of Differential Instruction allows us to meet the diverse educational needs of the students we serve. We use Direct Instruction, Previewing, Acceleration, Graphic Organizers, and hands on instruction as a few of the instructional methods to reach our students. We incorporate the use of CRCT sub-score results, provider administered pre-test, classroom instructor conferencing, and parent/guardian input to develop student assessment profiles. From these profiles we develop Individualized Student Instruction Plans for each student. ATP's sessions range from 45 minutes to one hour and fifteen minutes. The sessions are structured to maximize the funding each student is allotted for tutoring. We are not technology based. We do use computers for both acceleration and remediation as well as for providing additional GPS aligned practice problems. All materials employed by ATP are GPS aligned.

Program Summary:

Anytime Tutoring offers tutoring in math, English language arts, reading and science. Science is only available to high school students. Program runs two days a week. Each session is 1-2 hours long. If possible, tutoring sessions are held at the school. If not, tutoring is offered either at students' homes, online, at a local community center, local library or a church. If possible, transportation to the tutoring site from schools and from the tutoring site to home is also provided. Students just have to be present go get the benefit of the program. All the instructional materials including the books for face-to-face instructions and computers for online instructions is provided. Anytime Tutoring uses local tutors and trains them to provide high quality tutoring.

Program Summary:

ASSETS Learning Center has been tutoring students since July 1998. ASSETS Learning center provides instruction and tutoring to at risk and special needs students. Each student begins with a comprehensive skills assessment that allows the teacher to precisely identify the student's weaknesses and strengths. Services are provided in math and reading. The instructional program is built on a Response to Intervention Model. Students are tutored in the home, at our center, and online. Our teachers are certified with strong teaching backgrounds and a comprehensive understanding of how to increase the academic performance of at risk and special needs children. ASSETS has a proven record of effectiveness in helping students improve academically on state standards. Tutoring sessions are one and a half hours long twice weekly or three hours on Saturday or Sunday. The facility is equipped with computers, access to the internet, and instructional materials aligned with Georgia Performance Standards.

Program Summary:

ATS Project Success offers eligible K-8 students support in English Language Arts (including reading) and Mathematics. We offer services online in the comfort and safety of the student's home with a loaned, pre-programmed computer and dial-up Internet service at no cost to parents. We assess students to determine the student's instructional level and learning objectives. Next, we set and adjust the curriculum to provide activities at the appropriate level. We encourage students to complete two one-hour sessions per week. Our staff monitors student progress online and follows-up with emails to the student and calls to their parents once each week. We also provide parents with monthly written reports (English/Spanish) and work with schools and teachers to make sure the student's efforts in our program are helping them success in the classroom as well. The students use the SuccessMaker program from Pearson Digital Learning.

Student\Tutor Ratio: 10:1

Max. Number of Students (all districts): 2000

Min. Number of Students (each district): 1

Cost to District (per hour): \$50

Program Summary:

August House uses highly engaging stories from around the world with colorful animations, entertaining read along files, carefully illustrated picture books and targeted practice assignments to build the specific reading skills each student needs to succeed on the CRCT. The self-paced program is aligned to the Georgia Performance Standards (GPS) for grades K-5. It can be used individually or in a small group. The program and assignments are highly interactive and guide the students to practice exactly the skills that they need to master. Students will need to have internet access and are expected to use the program twice a week for one hour at home, at a library, a community center or other facility with an internet connection. Each student is assessed throughout the program and the results are used to build an Individual Student Profile (ISP) that identifies specific strengths and weaknesses matching the GPS. Progress is measured, tracked and reported to ensure that the student is practicing the specific reading skills that he or she needs to build. When students complete a story unit, they take the book home to build their own personal reading library. After completing the program, on average the students will improve their reading skills by 10% or more on standardized tests. No transportation required. This highly engaging instructional model was developed over four years of research and testing. As a result, the program targets emerging and struggling readers who need to develop stronger skills and confidence in phonics, vocabulary, comprehension and fluency as defined by the Georgia Performance Standards.

Student\Tutor Ratio:	8:1
Max. Number of Students (all districts):	400
Min. Number of Students (each district):	1
Cost to District (per hour):	\$40

Program Summary:

Ava White Tutorials, Inc. has been helping students for 28 years. We have been involved with 3 school systems and 6 schools in the No Child Left Behind program since 2003. To date, we have assisted 5 of these 6 schools to make the Adequate Yearly Progress List. We have seen students in our after-school programs make significant gains in Reading, Math, and Language Arts. Many of our students advance 1-2 grade equivalents after the 30 hours of tutorials. To identify academic goals, each student is given a pre-test. Then we write an Individual Learning Plan, using the results of the testing, parent and teacher input. Students typically meet after school, at their school, with highly qualified, certified teachers who have valuable years of classroom experience. We see students in small groups, usually 3 to 6 pupils in these after school classes, and they meet 2 times a week for 1.5 hour sessions. Classes are typically held right after school, for example, 3:45 to 5:15. For students who meet at the school, transportation home is usually provided by the school or we pay for a taxi service to take the students home, after the tutorials. If parents prefer, we can see their child at our office for 1:1 tutorials and parents are then responsible for transportation. We use explicit, direct, incremental, systematic research-based instruction in teaching basic reading, language arts and math skills. Wilson Reading Program, LANGUAGE! and MATH*Ability are the main curriculums we use to help students reach their academic goals. All instructional materials are provided for the teachers and students. We do benchmark assessments throughout the program to ensure that students are making appropriate scholastic growth. Progress reports are sent home on a monthly basis, so that parents know how their child is making headway. We normally have 2 pizza parties during the 30-hour instructional period to reward attendance and celebrate student success.

Program Summary:

Back To Basics, Inc. is going into its ninth year of providing tutorial services in the metro Atlanta area, seven of those years as an SES provider through the No Child Left Behind Program. Back To Basics, Inc. focuses on Reading, Language Arts, and Mathematics instruction for grades K-8. Our coaches work with your children one-on-one in your home or with small groups of no more than eight students in a non-competitive environment (library, community center, etc.). We offer extensive academic assessments which target your child's current academic strengths and weaknesses. As a result, each student will receive customized instruction based upon their individual needs. Upon completion of our program, students have shown significant and consistent improvement, often increasing academic performance by one or two letter grades. Back To Basics, Inc. provides tutorial services seven days a week, and we typically schedule two, 2-hour sessions per week. These sessions are scheduled at a time that is convenient for the student, parent/guardian, and the academic coach. We look forward to becoming "Your Academic Solution!"

Our programs have been mentoring and tutoring students of targeted neighborhoods since 1999. This new SES Provider qualification is an exciting addition for our Georgia certified teachers, and tutoring professionals. Our love for learning and for children keeps us relevant and high-performing.

Our individual pre-assessments and post-assessments guide lesson plans and match tutors using best practices that are aligned with Georgia Performance Standards. We utilize research-based strategies and progress reports, discuss the child's academic growth with parents and promote teacher feedback.

Small group sizes of 8 or less, allow tutors the flexibility to offer more individualized instruction that enhances student mastery of the subject area. We work with LEA and community facilities to provide a comfortable learning environment wherever possible.

Our perspectives from parent to teacher to professional workforce supervisor is a continuing journey to understand all factors in our children's learning environment to meet and exceed stakeholder expectations.

Program Summary:

BELL (Building Educated Leaders for Life) is a non-profit organization that has been providing after-school and summer programming to K-8 grade students, whom we call scholars, since 1992. BELL operates in 6 states and serves over 10,000 children. The BELL after school program typically offers over 125 hours of instruction in small group setting (not to exceed 10:1) led by certified teachers and college student mentors. We use a standardized curriculum that is aligned with Georgia state standards and our staff receives over 40 hours of training prior to program start. BELL's results are impressive – scholars typically gain 8-10 months of skills in our afterschool program and 5-6 months of skills in our intensive 6 week summer program. BELL began serving children in Augusta, GA in the 2009-2010 academic year and 89% of parents said that they were satisfied with the BELL program and would recommend it to other parents.

Program Summary:

Since 1951, the Boys & Girls Clubs of Augusta (BGCA) has provided education services to CSRA youth. Professional and certified staff provide computer based and traditional tutoring activities. The Club uses innovative learning strategies to re-engage kids in learning and to make learning fun. All components are aligned to the Georgia Performance Standards and the BGCA STARS (Students Tapping Academic Resources for Success) tutoring program has demonstrated success. Most recently, STARS students show grade improvements of 53.5% in reading, 46.27% in math and 47.8% in science; 84% of STARS students passed the reading CRCT and 53% passed the math CRCT. Students realize positive outcomes including improved academic achievement, study skills, school attendance, attitude and behavior. After-school and summer services take place at area BGCA program sites. The program is comprised of 30 hour-long sessions and students may also participate in all other BGCA program offerings at no charge.

Cost to District (per hour): \$60

Program Summary:

BridgeHaven believes in FACE -to- FACE tutoring. We've served students for 15 years and strive to provide an educational program that best fits your child's specific needs.

Our programs are researched-based and proven effective for all children, even for those with learning differences (learning disabilities, dyslexia, ADD and ADHD). We feel that every child can and will learn when instruction matches a child's unique learning style. It is up to US to find out how your child learns best and then to remediate and enhance skills that bring success. YOUR job is to get them to us so that we can do our job using curriculum such as the Lindamood-Bell and Orton-Gillingham programs for reading and the Mathline system for math.

BridgeHaven has partnered with the public school systems since the beginning of Supplemental Educational Services (SES). Students have improved in both their assessment scores at BridgeHaven and the state-wide test, the CRCT. Parents have also given feedback as to the improvements in their child's overall classroom performance. We want improvements in Both places and work diligently to make this happen.

Students receive 1-2 hours of instruction per day for up to 3 days a week. Academic strengths and weaknesses will be identified through a pre-test and then compared to the CRCT test. Skills needing work will be identified and academic objectives will be set to master these skills.

Our teaching methods provide an instructional hour that will be fun and educational. Trained and qualified instructors will work in small groups or one-on one, if needed, to make sure learning happens.

At the end of the program, a post-test will show the academic gains of your child.

YOUR job- get them to us. OUR job – to educate!

Program Summary:

Bridges Learning Academy is a comprehensive K-9 student tutorial service that utilizes research-based instructional strategies and curriculum, to ensure academic success, by providing tailored, one-on-one instruction to students, in the comfort of their home or through locations of their parent's choice. Our local, highly qualified tutors, combined, have over 30 years of teaching experience. Our instructors have current Georgia teaching certifications or four-year degrees in a specific content area. Instructors are competently trained and highly qualified as defined by NCLB, to serve the academic needs of a wide variety of student demographics. We specialize in educating students with disabilities (SWD). Likewise, Bridges Learning Academy instructors have expertise in the content areas of Reading, Language Arts and Mathematics. Bridges Learning Academy believes that students must be active learners, with the ability to synthesize and classify data, communicate findings, and evaluate ideas and conclusions. To support this instructional approach, students will engage in performance tasks to demonstrate mastery. This includes instructional delivery using experimenting, modeling, simulations, individualized tutoring, and computer-assisted instruction. Moreover, Bridges Learning Academy employs the use of the following instructional material: Triumph Learning: Coach, Buckle Down, Wilsons Reading System, all have proven success in raising student achievement scores. After an initial consultation and pre-diagnostic, Bridges Learning Academy will develop an academic plan, in collaboration with both the student, and parent/guardian. Services are available after school and weekends. The cost is \$60 per hour. Bridges Learning Academy Instructors map instruction to learning needs and improve student achievement. This is Bridges Learning Academy's first year as a Georgia SES Provider.

Student\Tutor Ratio: 8:1

Max. Number of Students (all districts): 300

Min. Number of Students (each district): 10

Cost to District (per hour): \$60

Program Summary:

The initial instructional program was created to improve the Georgia High School Test scores. The program is designed to target students that are at risk to fail the math portion of the GHSGT. The students have been selected by GHSGT predictor test scores as well as Teacher recommendations. The program also has been able to improve scores for students that have already taken the test but need to re-test for graduation. The program is designed to prepare the students to meet or exceed standards on the GHSGT and to become more confident math students. The focus of the program is positive re-enforcement for students that are usually not model students and often have no student support system at home. We designed the program with the concept of mastery learning. Our summer tutorial services primarily targeted 11th grade students who failed the math or English/Language Arts portion of the Georgia High School Graduation Test (GHSGT); however, there were number of 12th grade students who also attended the program and as a result were able to earn their high school diploma and increased the overall graduation rate of the school. The Burke County High School's graduation went from 61% in 2008 to 71% in 2009. It was felt that the summer tutorial program, especially the mathematics section, greatly contributed to this increase. Prior to the summer tutorial only 68% of students passed the test the first time. After the summer program this number increased by 3 percentage points which can be considered significant. Of the students involved in the summer program, 89% passed the Mathematics re-take and 45% passed the English Language Arts portion at re-test.

Program Summary:

Over the years, C2 has compiled statistics as to how many hours of instruction it takes to raise students from a given level of performance (as measured by our initial assessment using the California Achievement Test) to a desired level set in the program goals (worked out by parent and C2 center director). While most students come on average 2 times a week, that figure is flexible and depends on the amount of improvement required. Therefore, the 2 hour figure above is a typical program. However, each program, including number of sessions per week is tailored to the needs of each student. The 2 hour session is standard to allow for sufficient instruction and practice and to ensure a consistent schedule during the week so that we can ensure that students have guaranteed availability when they come to C2.

Program Summary:

Since its inception in 2000, C2 Educational Systems has provided individualized tutoring to K-12 students in all academic areas. It has been an SES provider in the State of Georgia from 2006 through 2009. Each student is assessed prior to enrollment to determine strengths and weaknesses in order to establish a customized program of instruction. Instruction is then delivered in 2-hour increments by a highly qualified tutor with no more than 5 students per tutor. C2 uses a combination of curriculum materials from national publishers as well as materials used in the local districts. C2 provides tutoring services Monday through Thursday (after school), and all day Saturday. C2 has an extraordinary track record in helping its students raise their grade point average, SAT scores, and passing their state exams. Instruction is tied to the Georgia Performance Standards and can include school assignments. Each center is located in a shopping center and is fully equipped with all necessary curriculum and materials.

Program Summary:

When the PUPIL is ready, the teacher may teach! Our unique approach enhances students' cognitive abilities. Camp Academia, Inc. has successfully provided educational services to students in grades K-12 for 20 years. With uninterrupted attendance, students gain on average 2.54 grade levels in 12 weeks. Scientifically proven research in the field of cognitive science dictates our methodology. Our diagnostic instruments are the Test of Silent Contextual Reading Fluency, Woodcock Johnson Achievement, and Cognitive Abilities Tests. We create an Individual Study Plan with specific goals to ensure scope and sequence of skills taught through our curriculum which are aligned with the Georgia Performance Standards (GPS), and the child's classroom curriculum. During two-hour twice-weekly visits, our certified teachers teach learning success through our patented computer program Brainjogging®. We guarantee that if a child attends our program regularly, we will help them.

Program Summary:

Child & Adolescent Resource Education Services, LLC (CARES) is a Georgia state approved SES provider. Our motto is: We do all we can because we care! We assist some students with special needs or disabilities. We offer assistance in Reading and Math in grades K-12, and Social Studies for middle school students. CARES offers one-on-one tutoring as well as group tutoring in the student home, or a public location agreed on with each parent. CARES creates an individualized student plan for each child with a goal of them achieving 80% or above on lessons to prepare them for the CRCT, GHSGT, or EOCT. Pre and post tests along with specific quizzes for the student's individual needs are provided during the one hour twice a week tutoring sessions after school hours.

We would like the opportunity to serve your family as your child becomes a life long learner.

Cost to District (per hour): \$55

Program Summary:

Carrter, Reddy & Associates utilizes Reciprocal Teaching strategies to tutor students in reading and mathematics. In reading, depending on their age and skill level, they receive tutoring in phonics, phonemic awareness, vocabulary skills, comprehension, and oral reading fluency. English language learners receive tutoring based on their competence with English language.

In mathematics, students are tutored in specific areas based on their needs: whole numbers, numeration, fractions, decimals, percents, geometry, pre-algebra, measurement, etc. They learn specific problem-solving strategies that help them maneuver mathematical equations.

Students are tutored in small groups for 20-23 sessions lasting one-two hours. After school session times range from 3-7pm. Potential facilities include homes of students, students' school(s), community centers, faith based centers, libraries, and C & R sites.

The techniques we employ have been validated and deemed effective by reading and learning research, and studies have shown that students improve in as little as 20 days of tutoring.

Program Summary:
 CF Tutoring specializes in helping students who have not been successful with traditional teaching. Based on 15 years of experience, we understand that not everyone learns the same way or at the same rate. Using a web based test to identify what your student has not learned, we develop an instructional plan based on the Georgia Performance Standards & the test they are expected to pass. Only after they have mastered one concept, do we move on to the next. Our average student showed a 93 point increase between their pre and posttest. The materials we use are aligned to the Georgia Standards and are provided free. Our tutoring groups of no more than 4 students per tutor meet once or twice a week for up to 2 hours per session generally at the local library. Sessions are available 7 days a week

Program Summary:

The Citi Church Tutoring program has provided small-group tutoring for grades K-12 in reading and math for the past four years to over 800 students. Our staff of state-certified teachers and paraprofessionals has over 40 years of experience and are passionate about the success of each child. We create a tutoring environment that makes learning fun, engaging and effective for each student. Along with our 100% parent and school principal approval rating, over 90% of enrolled students show significant learning gains as a result program. For each assigned student we complete an analysis of school data, administer diagnostic assessments, and develop individualized learning plans. Students are placed into small groups (1:8), based on their academic needs and receive from 18 – 25 hours of supplemental instruction. While in these small groups, tutors use our proven curriculum, aligned with Georgia Performance Standards, to actively engage students in a rewarding learning experience.

Cost to District (per hour):	\$65

Program Summary:

For eight years, Club Z! has delivered high quality instruction in ELA, reading and mathematics to students in grades Kindergarten through twelve, including students with disabilities and English language learners. Parents can choose between two convenient tutoring options – in-home, or small group (8 students max) sessions held at safe, convenient locations. Club Z! uses a proven teaching model, emphasizing one-on-one attention to address students' unique educational needs. Club Z! will utilize pre-assessment results and input from school staff and parents to create a customized learning plan for each student. Tutoring sessions are typically 1 to 2 hours long, and usually take place 1 to 3 times per week. All materials are provided by Club Z! The Club Z! program has been repeatedly proven to be effective for specialized student groups such as ELL students and students with disabilities. Club Z! students typically improve their scores by one full grade level!

Program Summary:

Coffee County Schools' instructional staff has extensive experience supporting students who are in need of additional academic support. The district's student population is diverse, and the instructional staff has helped a variety of students in whole group, small group, and individual situations. The district will be using computer based programs that will allow tutors to provide students with prescriptive tutoring sessions based on students' diagnosed weaknesses in reading and/or mathematics. Tutoring will be done after school two days per week. Tutors will pretest students, plan lessons that address students' weaknesses, and monitor student improvement, reporting regularly to parents and classroom teachers. The tutoring will occur at the students' home school, using the computers with which students are familiar. Instructional materials will include, but are not limited to, Voyager, Vmath, Study Island, and FastMath.

Program Summary:

At Collier Tutoring Services, we provide one-on-one or small group tutoring. Our tutors work with students, K - 12th grade, in mathematics. We tailor our educational approach in accordance with the Georgia Performance Standards to meet the needs of each student. These needs are identified through grade level pre-assessments along with feedback from teachers and parents/guardians. Whether the student is an auditory or visual learner, our methods have been proven to increase mathematical knowledge and test scores. We meet with the student in a structured environment, whether in the home or community. At Collier Tutoring Services, our qualified staff attend workshops and trainings to ensure we are current on the latest teaching methods and technology as it relates to mathematical instruction. Our ultimate goal is to help the student develop a connection between conceptual development, computational skills, and problem solving that will assist in mathematics and in other disciplines.

Program Summary:

The Columbus Community Center, founded in 1946. We have been a United Way Agency since the 50's. Each year we are evaluated by the United Way. Our objectives and goals are the same as this grant. We have always "exceeded expectations" from the review committee on both our financial stability and programs for our youth participants. The tools we use to determine the effectiveness of programs are progress reports, report cards and surveys from parents. At the beginning of the school year, we talk with parents and teachers to determine the needs. Information from the first progress report, are entered into a computer program. Any child with a low C or F automatically gets a tutor. We use activity sheets to help students practice schoolwork that needs improvement. We also check behavior grades. They are also recorded in the computer.

Program Summary:

Communities In Schools of Fitzgerald-Ben Hill County, Inc. was incorporated in 1982 and has 18 years experience developing and implementing comprehensive dropout prevention programs. We will serve middle and high school students (6th through 12th grades) through an after school and summer tutorial program focusing on reading, English, language arts and math. Program will use research-based, on-line curriculum PLATO® Secondary Solutions, helping students improve academic skills, pass required tests and graduate on time. Services offered at the CIS Youth and Family Resource Center located at 401 West Altamaha Street. The center has two ten-station computer labs with Internet access for each designated school level and will have a student/tutor ratio of 10:1. Depending on individualized student instructional plans, tutoring sessions will be 1-2 hours for 2-4 days per week after school and will be available Monday through Thursday with a modified summer schedule. Approved SES provider from 2006-2009.

Cost to District (per hour): \$70

Program Summary:

Cool Kids Learn, a nationwide non-profit educational organization, has been in the forefront of quality academic tutoring and enrichment programming for 10 years. Our mission is to help students build the academic skills and the love of learning they need to succeed in school and in life. We focus on strong partnerships with the school, district and parent so that our students will make significant improvement. Our recent history of documented test score improvements shows that up to 94% of our students improved reading and math skills by up to 40%, with students at greatest risk showing some of the largest gains. And parent and classroom teacher satisfaction surveys suggest that our students have become more engaged in learning. We give parents and students options of where when and where tutoring can take place, such as at the school itself, at a community center, or in the home. We consult with the school on what the student needs to improve, and we conduct our own testing, in order to create a custom-made program for each student. We will accommodate the student's special way of learning and we will match each one with the tutor and group best suited to needs. English Language Learners are welcome and we provide special materials for rapid improvement of basic skills. Site supervisors keep contact with parents, tutors and schools, so that each student is receiving proper attention. Our Steps to Success trade mark materials cover all the major Reading and Math strands and engage students in fun and meaningful ways to complement regular classroom instruction. Cool Kids Learn was elected to the Florida and Tennessee Department of Education Advisory Panels; in recognition of our quality-driven programs, and we are proud to be able to serve Georgia students and their parents once again in 2010-2011.

Program Summary:

Our company has been providing tutoring services for 3 years and is an experienced Supplemental Educational Services provider that has built a solid reputation among students, parents, and districts as a provider of services that are organized, of high quality, rewarding and responsive to the needs of students and parents. We offer one-on-one or small group instruction 60 minutes for 2-3 days a week to students in reading. Services are offered at the student's school, home or community center. We use certified teachers, paraprofessionals and other qualified personnel that are experienced in working with struggling students. Our instructors include special education teachers, guidance counselors, teachers that hold a reading endorsement, and tutors that are fluent in Spanish. Our process begins with communicating with parents and teachers to determine subject assessments or our own assessments. We then diagnose student needs using existing district assessments or our own assessments. We use these assessment results, along with parent and teacher feedback, to create 2 to 3 reading goals for the Student Learning Plan. Our reading curriculum correlates with the Georgia Performance Standards and has helped students improve their grades and performance on state tests. We provide students with strategies that will help them achieve long-term success. By using teacher and peer modeling, graphic organizers, and hands-on manipulatives, students with unique learning needs will benefit from our individualized approach. We create a learning environment that is enjoyable for students in order to encourage active participation and optimum mastery of skills. We also provide daily snacks, student incentives on a weekly basis, perfect attendance prizes and program completion awards to motivate students to have good attendance throughout the entire program.

--	--

Program Summary:

The Dougherty County School System (DCSS) is an LEA (Local Educational Agency) is a State endorsed Supplemental Educational Services (SES) provider. An analysis of data regarding DCSS tutorial participants of the past three years indicate that over 400 participants passed the retest of the Reading CRCT (Criterion Referenced Competency Test) test, and that 70% of the participants passed one or more parts of the GHSGT (Georgia High School Graduation Tests) retests. Services will also address End of Course Tests (EOCT). SES services will be provided in the form of a Saturday Academy with a mid-week follow-up session. The weekly Saturday Academy will operate from 9:00 a.m. to 1:00 p.m., and the mid-week follow-up session will be held on Wednesdays from 4:00-6:00p.m. Students will be provided tutoring in Reading/Language Arts, and Math. Individual learning plans (ILPs) based on learning styles and weakness in GPS standards and content domains of CRCT/GHSGT tests respectively will be created for each student. By-weekly formal assessments and weekly informal assessments determine standards mastery. The results of these assessments will be included in the student progress reports and communicated to parents and students on a monthly basis. Students receiving SES services will have access to 21st Century Classroom technology and highly qualified (HiQ) teachers. Teachers will use differentiated instruction to address student needs. Participants will have access to computer labs with network and internet based software programs such as FASTMATH, I-Learn, and Learning Village, Individual Prescription for Achieving State Standards (IPASS), and Study Island. The system will maintain a tutor-pupil ratio of no greater than 1:8. So, the number of SES sites provided by the district will be determined by student participation. However, there will be a minimum of one middle school and one high school site in the district. The district will provide transportation.

Subject(s) Served: Mathematics

Grade(s) Served: 3-12

Student\Tutor Ratio: 3:1

Max. Number of Students (all districts): 1200

Min. Number of Students (each district): 5

Cost to District (per hour): \$90

Program Summary:

Educate Online has successfully served more than 56,000 students since 2002, including more than 1,400 in Georgia since 2007. On average, students who complete our math program gain at least a grade level. This also positively impacts in-school performance and grades.

All instruction takes place on a computer and headset provided by Educate Online. Educate Online will also arrange internet connectivity, if needed. To ensure student safety, the computers are loaded with security software embedded in the operating system only allowing students to access the Educate Online program until they complete their tutoring. Students typically take two to four 60 minute sessions each week. Using headset and computer, they will be taught by a live instructor.

All sessions take place in the safety and convenience of each student's home - eliminating the need for transportation. Sessions are available seven days a week and are taught by U.S. state-certified teachers with at least two years of teaching experience. Student-to-teacher ratios do not exceed 3:1.

Students take an assessment test at the beginning of the Educate Online program to provide a baseline for determining an individualized learning plan. A Prescription Monitor reviews each plan to ensure that the skills are matched up properly and the curriculum is appropriate for that student. The plan presents content areas where the student is struggling, specific skills or strategies needed and examples of skills or strategies in use. Educate Online is able to serve ELL, special education, and disabled students given their ability to perform the necessary computer related functions.

Program Summary:

Education & Guidance Services (EGS) has been providing the supplementary educational needs of the students of West Central Georgia for sixteen years. We are a SACS/CASI accredited special-purpose school and have been providing tutorial support for the NCLB program from its very first day. More than fifty dedicated, certified educators make up our team. Teachers are available, by appointment only, seven days each week. As educators, we all enjoy the delight in watching young people rekindle their love of learning. Our success for all students utilizes the one-on-one expertise of the tutor, skill-appropriate written material – not computers – to strengthen the student’s skill base, academic self-confidence, and classroom achievement. Students are given a thorough, initial diagnostic session involving math, reading, and language arts skills. The results are reviewed with the parent, student, and tutor; a plan of action is designed with goals proposed and tutorial activities planned using educational activities appropriate for the student’s needs. It is expected that the student will attend all scheduled (mutually agreed upon) sessions and will do follow-up reinforcement work at home between sessions. Most students meet with their tutor once or twice each week for one hour and most students watch their grades, standardized test results, and the CRCT or GHSGT scores really climb. Our approach with each student includes a knowledge that all students: have a special learning style, can achieve a delight in learning, can set and reach meaningful academic goals.

Program Summary:

Education Advantage has been a national leading provider of high-quality tutoring for over 4 years and has had the pleasure of servicing the students of Georgia since 2010. We offer services in READING and MATH for Kindergarten through 8th grades.

Our program uses the Georgia Coach curriculum, which is designed to help students not only pass the state exams but to excel in the classroom as well. After being in our program, students achieve an average increase in scores of 15%. Using highly-qualified teachers, we host small group sessions where there are 3-5 students per teacher, held 2-3 days per week (usually at the child's school) for 1 1/2 to 2 hours each. Individual instruction is available as well. We also provide tutoring on SATURDAYS, if needed. SIGN UP TODAY!

Student\Tutor Ratio:	8-1
Max. Number of Students (all districts):	1500
Min. Number of Students (each district):	35
Cost to District (per hour):	\$60

Program Summary:

Educational Enterprises is a tutoring and consulting company that was founded by Dr. Glenna Tyler in 1999. We have provided SES tutoring for 7 school years beginning in 2002-2003. Since 2002-2003 Educational Enterprises has been successful in assisting numerous schools in meeting AYP; Riley and Barden Elementary schools in Macon, Georgia and Rutherford Elementary in Detroit, Michigan. We have also assisted other schools in raising their student's academic achievement on state standards; Weaver Middle School in Macon, Georgia, Campbell Middle School, Carson Middle School and Turner Middle School all in Atlanta, Georgia. Programs will be conducted at schools, churches or community centers for participating students. Sessions last from 1.0 hours to 2.0 hours per day with an average session being 1.5 hours. (Some Saturday programs run 3.0 hours 4 days per month). Sessions will run 2-3 days per week. Program hours will run 20-30 depending on school district. All tutoring programs will begin with Achieve assessment test for K-12. After students strengths and weaknesses have been determined an individualized plan is developed to target specific areas and skill gaps for tutoring. Goals and objectives will be determined by identifying skill gaps and correlating them to state standards for mastery. Student progress will be monitored daily. A monthly progress report and a detailed tutoring log will be sent home. As students master goals and objectives this will be noted on the tutoring log, then new goals and objectives will be determined for mastery. All materials will be provided by Educational Enterprises, if technology is needed for service delivery it will be available either at school sites, churches or community centers for all students. Educational Enterprises has provided SES to Georgia students for 7 school cycles beginning in 2002-2003 to current 2008-2009.

Cost to District (per hour):	50

Program Summary:

Educational Escapades believes that all students can learn while having fun. Our mathematics & Language Arts K-8 instruction is focused on high expectations for all (general and special needs population) students. Tutors deliver learning strategies using student data to meet individual needs. Students are tested, given individual plans and materials that will address their own needs. Mathematics sessions teach students math skills (solving problems, counting money, etc). Our Language Arts program develops comprehension skills (reasoning, vocabulary, analyzing evidence) and help students improve their writing. Students improve reading by practicing blending sounds and reading information. Information is taught through demonstration and practiced until fully understood and each child can apply it. Students practice after school, in school or library up to two hours. Scheduling is flexible and tutor ratio is 8:1 or one on one. We've been in business for 3 years and continue to strive to improve student academic achievement.

--	---

Program Summary:

EduTech Cognitive Therapy provides free on-line and off-line tutoring in reading and mathematics to K-12 students. Our tutoring program utilizes a variety of fun and effective techniques that are proven to help increase the academic achievement levels of all students, including those with special educational needs (e.g., LD, ADHD, ADD, Dyslexia, at risk for failing, and ELL-Spanish-speaking).

Our highly-qualified tutors service students in schools, churches, provider site or in the home; and many are Sp. Ed. Certified. Students attend up to 6 hours per week, after school, weekends, also summer, and they receive a total of 32 hours of high-intensity tutoring in one-on-one or small group sessions. Tutors diagnose each student's needs, and prepare individualized learning plans that utilize direct tutor instruction and computer-based programs, designed to help increase academic achievement, and improvement learning and memory skills. Monthly progress is reported to parents and skills growth is measured at the end of the program.

Program Summary:

Elbert County Schools Supplemental Education has been tutoring students for 10 years. Our program has seen an increase in Georgia High School Graduation Test and End of Test score of Economically Disadvantaged student between 5 and 10% in all subject areas. Each tutoring session is one hour in length. Sessions will be two to three times each. Tutoring sessions may take place before or afterschool. All tutoring is aligned to the Georgia Performance Standards for subject area and grade levels served. Research based teaching strategies are implemented to reinforce and re-teach concepts introduced during the regular school day. Each student will take a diagnostic and monthly benchmark assessment to monitor student progress. Results will be used to develop Individual Student Plans and make necessary adjustments. This is Elbert County Schools Supplemental Education's first year of service as an SES provider.

Program Summary:

Electronic Classroom Of Tomorrow is a nonprofit organization that provides quality online individualized live tutoring by licensed highly qualified teachers in a real-time setting. Tutoring can take place in the home, school or at any other location with computer and internet access of the parents' choice such as a library, community center, or a business. Headsets are sent to all students, so they can actively participate in live tutoring session. Our Educators use research based strategies that have demonstrated success based upon individual students needs as determined with input of parents and your child's teachers following Georgia's Performance Standards.

Based on frequency and length of the instruction (we suggest one hour three days per week) and the specific skills to be provided, progress will be monitored weekly or bi-weekly. Results will be sent to parent and teachers and a mid-point conference will be provided.

Cost to District (per hour): \$70.00

Program Summary:

We provide tutorial services in Reading/Language Arts, Math, and Science for small groups of eight or less. We have a demonstrated record of effectiveness in improving academics. We have been an approved provider in Georgia for the last three years. Students typically receive about 20-30 hours of instruction averaging about six hours per week. Tutoring sessions are held 2-3 times a week and typically last about 90 minutes. Sessions include differentiated instruction, guided practice, and learning games. Diagnostic, formative, and summative assessments are also included. Once the areas in need of remediation are identified, an individual student learning plan will be prescribed and developed. It is our goal to employ certified teachers who are already employed by the local school districts. Our tutors are required to communicate with parents and teachers on a consistent basis to inform them of student progress. We also provide transportation for some locations.

--	---

Program Summary:

Empowerment of Minds Learning Centers provides customized tutorial services for students grades K-12. Tutoring is available in Math, Reading, English/Language Arts. Empowerment of Minds is designed to close academic gaps, develop test-taking strategies, and assist in preparing students for the Criterion-Referenced Competency Test (CRCT), Georgia High School Graduation Tests (GHS GT), and Georgia Alternate Assessment (GAA) state mandated test.

Parents may choose our Saturday School, with Free Transportation and Free Lunch; Our Personalized "one on one" in home tutoring; as well as tutoring during afterschool and weekends, at other selected community sites. Empowerment of Minds small group sessions fosters a safe secure environment that allows for academic growth, creativity, and character building. Our tutors are certified teachers and other highly experienced educators. Students receive pre and post assessment test to identify instructional level. Individual student skill gaps, strengths, and weaknesses are identified in an individualized student plan. Students receive monthly progress reports to chart their strengths and weaknesses.

Empowerment of Minds will develop, nurture each student, and positively influence their self esteem. Our goal is to renew confidence and a sense of interest in learning so that each student will be successful in the classroom and abroad. Parents have reported a significant gain in grades, performance level growth on the CRCT, attendance, and self esteem as a result of their child completing tutorial with Empowerment of Minds Learning Centers.

Program Summary:

At Empowerment Tutoring we believe that success in school leads to success in life. Therefore, our mission is to empower students to achieve academic excellence through building self-esteem, and educational competence in a safe environment that is conducive to learning for students in grades K-12 in all major subject areas including reading/ language arts, mathematics and science..

Our mission is accomplished through the use of key instructional materials, highly qualified instructors, and the use of research-based teaching strategies. Parents play a vital role in the success of students therefore, we consult regularly with them in order to support student learning and goals. We provide a quality-driven program that is aligned with State academic content and student academic achievement standards. Our program has had a high level of effectiveness in increasing student academic achievement

Empowerment Tutoring offers services after school, weekends and during the summer.

Student\Tutor Ratio: 1-1

Max. Number of Students (all districts): 4000

Min. Number of Students (each district): 1

Cost to District (per hour): 60

Program Summary:

Envision Learning has been tutoring and mentoring kids since 2006. In addition to other services, we provide online math tutoring using (ALEKS) Assessment and Learning in Knowledge Spaces, a web-based artificially intelligent assessment and learning system.

Our program is aligned with the Georgia Performance Standards (GPS). Students using ALEKS consistently, result in test scores increasing and overall mastery of basic math facts.

Following the initial assessment, ALEKS generates a pie chart to display student results. The report describes the student's current knowledge of the subject and creates an (ISP) Individual Student Plan. Computer/Internet is provided for students who do not have access.

Students have the flexibility to tutor at home. We encourage 2-4 hours of tutoring per week. Students must complete a minimum of 35 hours of tutoring within the school year and the cost to District is \$60.00 per hour. Students can continue to tutor unlimited hours through the end of the school year.

Min. Number of Students (each district): 5

Cost to District (per hour): \$90

Program Summary:

EOL Virtual Classroom is an SES program offered by Educate Online, America's leading provider of live, personalized, at-home tutoring. Educate Online has successfully served more than 56, 000 students since 2002. On average, students who complete either our math or reading program gain a grade level in skills.

The EOL Virtual Classroom brings qualified, experienced teachers from around the country directly to students. All teachers are U.S. based, certified teachers with at least two years of teaching experience.

Each student logs onto our secure website from home, while a teacher logs on from another loation. Students and teachers share the same desktop, so they can work together effectively. Each student is in his or her own virtual classroom so their experiences are entirely one-on-one. Tutoring sessions are available seven days a week, after school and on weekends.

To participate in this program, students must have their own computers and internet access.

Program Summary:

eSchoolhouse has almost ten years of providing tutoring to K-12 students. The effectiveness of eSchoolhouse's instructional program has been well established and documented through high stakes test results, matriculation into university and higher grades. Families choose our private schools year after year.

eSchoolhouse provides 1:1 tutoring to students through the Internet using its proprietary instant, real time communication software designed for K-12 education. Students work in their home using computers and software provided free of charge. After all student performance data is amassed, a specially trained Academic Advisor is assigned to each student. The Academic Advisor administers the Passkey diagnostic and prescriptive testing; the results coupled with performance data is analyzed to develop the Individual Education Plan (IEP). Tutoring sessions are scheduled based on the requirements set forth in the customized IEP. Certified teachers who are also subject matter experts provide tutoring online.

eSchool House curriculum allows students the flexibility to work at their own pace. Special needs students and quick learners both are able to achieve academic success by taking as much time as they need to comprehend the course material-no more, no less. With over 150 course offerings, the unique curriculum is delivered through the Internet and includes a combination of online and offline components, including E-texts, traditional textbooks, workbooks, CD-ROMs and other interactive multimedia. Lessons are designed to contain about 45 minutes of work. Academic Counselors will be available during this time to support students in a variety of ways. Our system will automatically track the time that students spend online. Free from peer pressures, distractions, and a rigid educational formula, our home school students can pursue educational excellence.

Program Summary:

Exito Incorporated is a team of experienced educators committed to helping your child excel at school. While in our care, students will find themselves motivated, engaged and, confident. Our program offers small group and individual tutoring over the course of several weeks. All tutoring is performed by certified teachers and subject matter experts. We provide a relaxing learning environment where students learn and have fun. Our program uses research based strategies that are designed to improve student achievement and exceed Georgia's state standards. Exito's program helps students catch up and excel in Reading, Language Arts, and Mathematics. We proudly service K-8 students after school Monday - Friday and on weekends. Your child will receive four hours of personalized instruction per week. For added convenience, we provide services at libraries, community centers, and schools in addition to in-home tutoring. We look forward to helping your student succeed because EXITO is SUCCESS!

Program Summary:

FELC Tutors has been in operation for five years, providing intensive, small-group intervention to eligible students. Although FELC Tutors has not had the opportunity to provide tutorial services in the state of Georgia, we presently serve students in Florida, New Mexico, Texas, Illinois, and Colorado.

We provide students with services at the school site, student's home, business, community center, religious facility, LEA Facility- if not an LEA , approval from LEA required internet/online, software-based, before school, after school and/or on weekends. FELC Tutors employs tutors that are state certified teachers and/or certified paraprofessionals. Parents are included in the development of their child's academic improvement plan and receive monthly progress reports, as well as results from their child's pre and post diagnostic assessments. Students are monitored periodically to gauge the effectiveness of the program.

Min. Number of Students (each district):	5
Cost to District (per hour):	\$55

Program Summary:

Gateway tutors struggling and at-risk students in reading and math, grades K-8. All students must take a pre and post test as a prerequisite for our program. Gateway tutors must possess a Teaching Certificate and must be certified to teach in the area in which they tutor. Paraprofessionals must have 2 or more years experience working with students or an associate degree.

At the heart of the Gateway's approach to tutoring are two complementary instructional design programs: Direct Instruction and Kagan Cooperative Learning. Our model engages students through active learning and builds a sense of self-efficacy through identifiable goals that the students achieve during a given session. Our model educates the whole child through interaction with their teachers and peers. Gateway tutors 2 days per week, 90 minutes per day, with a 1:5 ratio. Our program has proven highly effective at promoting substantial gains in reading and math skills.

Program Summary:

At Generation2Generation In-Home Tutoring we are dedicated to maximizing a student's success in all their academic endeavors. G2G tutors come to your home, or any other convenient location, providing an environment that is safe, comfortable and convenient. Our tutors schedule dates and times that are conducive to families and students, and since we come to you, parents do not have the added burden of worrying about transportation. We have over a year's worth of experience using differentiated instruction, which has proven effective in improving academic achievement not only in the classroom but also on state performance standards and assessments. G2G tailors a specific academic program by creating a multidimensional student profile based on a pre-assessment exam and learning style assessments and are designed to pinpoint academic deficiencies. Standard tutoring sessions combine Georgia Performance Standard aligned materials with one to two hours of tutoring twice a week.

Program Summary:

Global Partnership Schools works closely with schools, teachers and parents to help students meet state standards in Reading / English Language Arts and Math. We hire certified teachers and provide up to 10 hours of training before they begin tutoring. Your child will be supported by a proven curriculum designed to get the results you expect. We celebrate successes and constantly encourage students to work harder and strive for new levels of achievement.

We provide healthy snacks and start each session with KidTalk, a unique approach where teachers share ideas on how to be successful. This is followed by focused instruction to meet individual needs, plus fun and engaging computer activities that provide supplemental exercises. Outside the tutoring sessions, students may continue to build skills by accessing additional lessons 24/7, and at no charge, using a secure password.

Give your child the world! Sign up with Global Partnership Schools today!

Min. Number of Students (each district): 1

Cost to District (per hour): \$60

Program Summary:

Grade Results has a four year record of helping Title I students across the country improve a grade level on state tests. Our live, one-to-one online tutoring features content aligned with GPS and integrated into the schools' curriculum.

Our pretest, other tests and our discussions with parents, teachers and staff help form our Student Learning Plan. The student then works with our tutors one hour per day, three days per week for ten weeks.

We provide monthly Progress Reports and will distribute them via email, mail, school meetings or phone calls. The program ends when the student takes the posttest to demonstrate the knowledge gained.

All tutors have bachelor's degrees and almost all have graduate degrees and years of teaching experience. The tutors have regular trainings and their work is frequently reviewed. Students can access us anywhere a computer is connected to the internet. No other material is required.

Cost to District (per hour):	\$40-\$60

Program Summary:

For the past five years, Graham Consulting Group, LLC has offered In-home or small group tutorial programs to over 350 low-income students and families beyond the normal scope of school-based educational programs. Our tutorials have shown positive academic growth in several areas. For example, 90% of all students who have enrolled in our SAT/ACT preparation tutorials have achieved an increase of at least 250 points on their future standardized exams. In addition, 91% of all students who have participated in our Georgia High School Graduation Test tutorials have attained a minimal passing score in all subject areas. Moreover, 89% showed improvement in reading comprehension, while 95% showed improvement in Math. Our tutorials increase student academic achievement by providing a detailed curriculum that is aligned with the grade and subject specific Georgia Performance Standards (GPS). Our tutorial program will drive students to mastery in the following areas: reading, English, and mathematics. Students are tutored in one-on-one/small group settings following an instructional plan based on their strengths and needs. Using the students diagnostic test results, an individualized learning plan includes our recommended instructional program, based on the student's individual needs. Our program is structured to give students 2-hour bi-weekly tutorials for a total of 15 weeks or 30 hours. The first and last two hours will be utilized for pre and post testing. Furthermore, instructors at Graham Consulting Group, LLC will have access to various technological resources including tape/CD players, grade appropriate books on tape, various listening activities and hands on manipulatives to assist in their tutorials. Graham Consulting Group, LLC has been an approved SES Tutorial provider for the past three years.

Min. Number of Students (each district):	7
Cost to District (per hour):	\$50

Program Summary:

In 2002, in an effort to reach out and accelerate the achievement of at-risk students, the GF CDC established an educational remedial program to teach, mentor, and tutor elementary school children living in poverty, within the Metro Atlanta Public School System. Our tutorial services are interactive and focus on the core academic subjects of Reading, Mathematics, and Language Arts for grades 1 through 12. Our instruction will emphasize skills to help all students achieve school success and pass promotional test objectives that the state requires. Certified teachers and highly qualified tutors will work with students on a one-on-one basis and in small group settings to ensure student success. Our program offers personalized student learning plans, innovative and unique techniques to reach students, access to computer based learning, comprehensive assessments, weekly and monthly progress reports to parents and teachers, on-going evaluations, and nutritional snacks. Tutorial services will be held at the Greenforest-McCalep Academic Center which is convenient, safe, and conducive to learning. The tutorial schedule includes a Saturday, three-hour tutoring session from 9 a.m. until 12 noon. Our tutorial instruction and educational materials are consistent with Georgia Performance Standards as well as the National Reading Panel (NRP) and the National Council of Mathematics. They are high quality and based on the most current knowledge of what promotes student success. Our instructional techniques have been successful in helping students at a low-achieving Metro-Atlanta school pass the CRCT (standardized test) that resulted in the school being removed from the list of schools not making the state's Adequate Yearly Progress (AYP). The Green Forest CDC was first approved as an SES provider for the 2003-2004 school year. We are currently completing our fourth year of service to students of Atlanta, Clayton, DeKalb, and Fulton County School Systems.

Program Summary:

Griffin-Spalding SES Academy (GSSA) will provide services in math to middle and high school students in grades 6-12. . Tutorials will be delivered either on two weekday afternoons for 120 minutes or on the weekends for 3.5 hours. Instruction will be provided through a blended model with computer assisted practice and direct tutor support. Study Island, ALEKS, and Georgia DOE Learning Village Mathematics resources will be used to provide content instruction and student practice. These programs are supported by empirical research, closely align with state and national standards, and include comprehensive on-going assessment components. In addition, instruction for high school students will utilize USA TestPrep and math resources available through the Georgia Department of Education. Schools in the system will be identified as sites for tutoring. All sites utilized have fully equipped computer labs for use during individualized instructional support. Transportation will be provided.

Program Summary:

The mission of Group Excellence is to motivate and inspire students to achieve excellence, regardless of their circumstances. Our small-group tutoring has won respect from many reviewers, including Dallas Independent School District, which praises our "non-traditional tutoring settings, a nurturing environment, and the natural connections between tutors and tutees".

We provide tutoring to students in grades 3-12. Sessions, which are typically 1.5-2 hours long, occur before school, after school, on weekends, and/or during summer. Tutoring is typically available 2-4 times per week, and occurs in small groups of no more than 5 students per tutor for elementary school students and no more than 7 students per tutor for middle school and high school students. Groups meet at safe, accessible locations, such as the student's school campus or a local community center. We also produce regular progress reports to keep parents up-to-date on their child's progress.

Program Summary:

If you are looking for real results, Hamilton and Harris Educational Consulting Group, will build the skills needed to prepare your child for a "Lifelong Excellence in Academics". We have over 20 years of teaching experience. We offer a comprehensive tutorial program in Reading, Language Arts and Mathematics, Grades K-12. The success of our program lies in the one-on-one or 5:1 ratio that we devote to every student and the expertise of our caring, highly qualified certified teachers. Our sessions are 1.5 hours, twice a week, at home, school, or library. Our assessment is the 1st and most important step in building your child's personalized learning plan. Our caring and patient tutors identify your child's learning style and pinpoint "skill gaps" or areas of academic struggle. Every step of the way, we'll keep your child on the path to success by carefully monitoring and tracking progress.

Program Summary:

Henry County Board of Education has provided after school tutorial services for over 20 years. The district has not been a Supplemental Education Services Provider. The current program's effectiveness can be quantified by examining the steady decrease in the number of students that "Did Not Meet" academic standards since 2007. The structure of a standard tutoring session includes a detailed assessment for each student. Students will receive tutoring a minimum of two days per week for a minimum of two hours per day. PASS, the district's assessment system, will be administered three times per year. Individualized lesson plans, appropriate tutorial assistance from a certified teacher using GPS and research-based programs, and individual goals will be provided based on assessment results. All tutoring will take place within the district. Technology, computers, software, and additional instructional materials will be used.

Program Summary:

Higher Heights Learning Center (HHLC) has been serving students for 6 years. We provide one-on-one high quality research-based tutoring to increase student achievement. Our program tutors students in Reading Kindergarten – 2nd grade. Daily lesson plans are prepared for each student using the Georgia Performance Standards (GPS). HHLC uses the Open Court curriculum used by the LEA school system in Valdosta City. Tutoring sessions are one hour twice a week. We have qualified tutors on staff capable of helping your child achieve at their highest level academically. Working with at risk and low income families under the “No Child Left Behind” legislation, we have seen an increase improvement in student performance.

Program Summary:

HireOrder Thinking Inc. (HOT) has over 13 years of tutoring experience servicing students with Reading /Spelling difficulty. HOT teaches Reading/English instruction, uses certified staff & follows GPS standards. HOT uses the Wilson Reading System (WRS) providing over 22 years of research-based, literacy achievements addressing the "At-risk" population; Students with Language-based Learning Disabilities, those on IEP's, Section 504 IAP, struggling readers and spellers, and English Language Learners (ELL). WRS instruction component areas are: Reading-Phonemic segmentation, Alphabetic Principle-sound/symbol relationships, Decoding, Encoding (spelling), Advanced Word Analysis, Vocabulary Development, Sight Word Instruction, Fluency, Comprehension with Visualization, and Metacognition. WRS explicitly teaches direct, structured, cumulative, multisensory, and integrated lessons that work! HOT supplies student materials and targeted Pre- and Posttest, with On-going assessments to identify academic strengths and weaknesses. Our sessions are 45-60 minutes, two-five times weekly; at homes, school, community centers or libraries. HOT will improve overall academic grades and help meet IEP/RTI goals/objectives!

Program Summary:

I Can Kids, Inc. has been in the forefront of providing educational services for at-risk children for ten years. Services are currently being provided in Williamsburg, South Carolina at a small rural elementary school that has not met AYP for four years. Cades Elementary School Partnered with I Can Kids, Inc. to provide three hours after-school tutoring in reading, math, science, and social studies. I Can Kids, Inc. was awarded a 21st Century After-School Learning Center Grant to assist the struggling school meet NCLB and state academic standards. The students are making significant academic growth that the principal attributes to the after-school program. The after-school sessions are small groups of no more than ten students. All teachers are highly qualified. Tutors are utilized the direct instruction, hands on manipulative and the Leap-track reading program to build the skill level of the students. High interest reading books and other reading materials recommended by the highly successful "Great Source Reading Program" are incorporated in all instructional sessions. Summer skill building sessions incorporate reading and language and math skills in the arts, writing, and health and fitness. I Can Kids, Inc. have designed the after-school instructional program to reach struggling students. Once the needs of the students are identified, the I Can Kids, Inc. staff designs a learning plan that fits the needs of the students. Teaching small groups and using strategies that address learning styles of students has made the I Can Kids, Inc. after-school program successful.

Program Summary:

Imagine Learning Academy helps English learners, struggling readers, and special education students strengthen reading and language skills. We combine two forms of instruction for twice the impact: an engaging software program and tutoring by top teachers in your child's school. This combination provides a fun environment, individualized attention, and effective instruction custom-fit for your child.

Imagine Learning Academy combines support from trained teachers with an engaging computer program called Imagine Learning English. This combination provides individualized attention, effective instruction in reading and English language proficiency for students in grades K-8. The scope of Imagine Learning English includes both basic and advanced language and literacy skills. Through engaging activities, students gain important skills in phonics, phonemic awareness, vocabulary, reading fluency, and reading comprehension. For English learners, Imagine Learning English provides first-language support in thirteen languages. With Imagine Learning Academy, your child will learn the skills needed to succeed in life.

Program Summary:

Integrated Academics provides rigorous and relevant tutoring in Reading, Language Arts, and Mathematics to all eligible students. Small group (8:1 student teacher ratio) tutoring sessions are content aligned with the Georgia Performance Standards (GPS). A comprehensive pre-test is used to identify the skill deficits of each student and target those areas in order to increase academic achievement. The diagnostic pretest scores, CRCT scores, and other achievement data are used to create an individualized Student Learning Plan which consists of mechanisms to track student growth. Integrated Academics offers innovative and unique techniques to meet the needs of any learner. Our students have access to computer-based learning and on-going academic support. Nutritional snacks and transportation is provided at many of our school sites. We also provide all materials needed for each tutorial session. Integrated Academics requires mastery learning which ensures academic achievement in school and for our program.

Program Summary:

International After School Program is a high quality computer-based tutorial and enrichment program. Parents select our onsite, home-based distance learning and/or correspondence tutorial program for their child. We are specifically effective working with students in Grades 2-12 in English, Language Arts, and Mathematics. We strengthen the student's cognitive ability by setting grade level academic goals and focused learning objectives. Our program uses the Internet, Computers, Technology, Distance Learning and Correspondence to deliver our instructional program. We provide the students with the necessary computer as a part of their materials package to complete their computer-based instructional program from home. Our program offers flexible scheduling options for participants and we work with parents to tailor the 2-4 hours of tutorials per week. Our educational team has been working with students since 1997 and we have been providing tutorial services in Georgia since 2007. Please visit our website at WWW.IASPGEORGIA.COM for more details or contact us at 1-800-723-9802 or 912-376-0611.

Program Summary:

Ivy League Tutor has been providing tutoring services since 2008. Our program uses the A+ Learning System, which is closely aligned with Georgia Performance Standards. Overall, Ivy League Tutors academic intervention and support shows increases in math scores with an average of 18 points and reading scores with an average of 30 points. Conducted entirely online, our program offers systematic web-based tutoring sessions tailored to each student's unique needs. With a customized, self-paced learning path, goals are determined using the A+ LS's Adaptive Assessments, targeting three to four skills per session. Tutors then track each student's progress, offer one-on-one online sessions, telephone support when needed, and facilitate reviews, assessments and progress. Student performance is continually monitored, with daily lesson plans and weekly meetings. In addition to providing students with instruction and software, Ivy League Tutor also provides a computer and internet access when needed.

Program Summary:

For over seven years, JFK TUTORING, INC. has serviced over 1500 students, Kindergarten through 12th grade, using a NATIONALLY RECOGNIZED curriculum created by Pearson Learning Group. GRADE/GMADE curriculum is aligned with the state standards and continues to be successful in improving academic achievement in the individual state achievement test. JFK provides a choice of individual or small group instruction in three convenient and flexible locations; in home, in school, or in public. The duration of each JFK tutoring session lasts an average of 1-2 hours, twice a week—before or after school or on weekends. On average, a student shows a 30% increase in his/her overall score from pre to post testing. Students' pre test grade level is based on previous state scores. ISPs are written based on the results of the grade level pretest with specific goals targeting the students' areas of weaknesses.

Program Summary:

The Kinetic Potential Scholars (KPS) program utilizes the latest advancements in technology to deliver the highest quality education to your child. Live academic sessions of up to 8 students are led by a KP Tutor who utilizes 3D virtual learning environments, white boards, online texts and streaming video technology to facilitate every lesson. KPS engages students in their education the same way video games reach out and grab kids' attention. Just as KPS' technology is top notch, so are our KP Tutors. Research demonstrates that more than class size, the course books used, or class schedule, quality of instruction proves to be the biggest factor in determining a child's academic success-especially for kids in struggling schools. By recruiting KP Tutors from America's best graduate programs in education-including those of Harvard, Pennsylvania, Johns Hopkins, Columbia and Yale-KPS not only selects from a pool of highly-qualified instructors, but also brings on board individuals who are specifically committed to providing at-risk students with equity in educational opportunities. KPS is more than just tutoring, we make a long-term commitment to the students in our program, providing each with mentorship and career development throughout each stage of their development.

Program Summary:

KIP Learning is a tutorial service that has served the Lithonia area for nearly 10 years. At KIP Learning we believe that "Education is not received. It is Achieved." KIP's students will undergo a diagnostic assessment, which includes reading, language arts and mathematics. These tests help evaluate each student's strengths and weaknesses and are lined with Georgia Performance Standards. This test will be analyzed by the director and teacher to develop an Individual Student Plan (ISP) customized based on skills and knowledge gaps. Students will meet twice a week for two hours with an eight-to-one pupil/teacher ratio. Kip will provide all materials needed for each tutorial session. Classes will be held Monday through Thursday after school and during the summer months. To ensure that academic achievement is accomplished, KIP tutorial program involves mastery learning.

Program Summary:

KnowledgePoints (923) KnowledgePoints - Lithia Springs has been providing tutoring services to students in Georgia since 2006. KnowledgePoints - Lithia Springs has a proven record of effectiveness. On average, students who complete the entire KnowledgePoints - Lithia Springs program will see a grade level equivalency increase of at least 1 grade level in Reading and Mathematics. KnowledgePoints - Lithia Springs offers both individualized, in-home instruction and small group instruction at our location or secured locations. In either case, KnowledgePoints - Lithia Springs offers tutoring at times the parent has selected as most convenient to the family. Sessions are typically 1 to 2 hours in length, occurring at least twice a week. Every session, whether individual or small group, includes time for skill demonstration by the instructor, guided practice facilitated by the instructor, and independent practice by the student. Each student's plan is unique and reviewed with the parent(s) to establish agreed goals. Our unique motivational system provides positive reinforcement. Individual learning is reviewed and updated after every session. When a student masters a new skill, they immediately move up to the next level. Parents are updated at least biweekly, and teacher and the school district monthly. An independent study shows that our program is highly effective for students of all ethnic and gender groups. KnowledgePoints – Lithia Springs is here to meet all student needs.

Cost to District (per hour):	\$45-\$56

Program Summary:

KnowledgePoints provides individualized tutoring services in the core learning skills of reading and math to grades K through 12. Our process involves a battery of tests to identify a student's weaknesses, the design of an academic curriculum for that student, and the delivery of tutoring services by state certified teachers. The student's goals for tutoring are set during an initial conference with parents, where test results are reviewed in detail. KnowledgePoints uses educational materials from the leading publishers in the U.S., including McGraw-Hill. Tutoring sessions last 1 to 2 hours in a highly interactive session where the student works closely with the tutor. A session consists of 4 to 8 activities designed at the skill and age level of the student. This means immediate success as the student learns. A motivational system insures a student's ongoing interest and participation. KnowledgePoints has been tutoring for 5 years in the Atlanta area and has been qualified for SES services for 3 years. Our results show growth of one and a half years in reading and two years in math during the initial 40 hours of tutoring!

Program Summary:

If your child is struggling in school to keep up with the daily rigors of the standards-based classroom or needs a little extra help to succeed, L3 / Life-Long Learners can help!

L3 tutors have documented student achievement, are college-educated, certified, and successful implementers of standards-based instruction. The Georgia Department of Education has declared that L3 is 100% compliant with all SES standards for the 2010-2011 school year!

The L3 instructional program includes Math, English/Language Arts, and Reading for grades 6-12. Students will meet weekly for 2 - 4 hours after school, weekends, or summer in safe, familiar venues (i.e., business, school, public library etc.). Instructional ratios are designed to maximize your child's learning experience. Assessments will determine the student's skill level and instruction is tailored to address the student's individual needs.

Join us in empowering your child to be life-long learner!

Program Summary:

Since 2007, Learn It Systems has provided small-group, direct instruction to students, helping thousands of students nationwide learn the fundamental reading and math skills to succeed in school and in life. Students who complete the Learn It program demonstrate an average increase of 15 percentage points in reading and 18 percentage points in math on our post-assessments. Sessions are 2-4 times per week for an average of 60-120 minutes. Students are assessed at the beginning of our programs using our assessment. Based on the results, Learn It collaborates with the district and parents to create Individual Learning Plans, which establish the academic goals and timetables for each student and provide an outline for instruction. Our programs are typically provided at the student's school. We provide all instructional materials and equipment needed to participate in any of our programs.

This is Learn It Systems first year as a provider in Georgia.

Min. Number of Students (each district): 2

Cost to District (per hour): \$55-\$65

Program Summary:

As a SES provider since 2006, our company serves students in grades 6th-12th in English, mathematics, reading, science, and social studies. Using face-to-face instruction, tutorial sessions are 60-120 minutes twice a week. The Individualized Student Plan is developed using test scores from the pre-test and state mandated test.

We have four programs to serve students: [1] Middle School (6th -8th) in English, reading, and mathematics; [2] High School (9th -12th) in any subject in English, mathematics, science, or social studies. This includes all End-of-Course Test (EOCT) classes. [3] GHSGT Prep (11th -12th) in all subjects tested on the graduation test; and [4] Enhanced English & Math (12th): This program is designed to help seniors prepare for testing beyond the GHSGT. To participate in this program, students must have passed the GHSGT.

We provide tutoring in-home, public library, or business facility. Study materials are provided for all students.

Cost to District (per hour): \$40-\$60

Program Summary:

Learning4Today (L4T) has offered SES tutoring services for four years. L4T's research-based Academic Excellence program demonstrates a record of effectiveness on student academic performance as measured by state assessments. Eighty-five percent of L4T students show at least a one grade level gain. We achieve these results by conducting an online assessment to identify gaps in each student's math and/or reading skills and by creating an individual plan that combines computer-aided instruction with small group tutoring to improve student skill levels a minimum of 80% at posttest. Students spend 3-5 hours per week alternating between computer-based and pencil-and-paper, small group learning in 1-2 hours sessions over a period of 15-20 weeks. L4T uses a mastery learning model to assess student progress. This model integrates ongoing, curriculum-based measurements of each student's ISP goals with their tutor's on-site observation of progress the student makes toward his/her goals.

Program Summary:

Loving Hands Community Development Corporation began offering tutoring services to at-risk youth in 1997. In 2008, two students from Thomaston-Upson County Schools attended our program, passed CRCT, and met academic requirements on state standards. Lexia Reading Program provides a computerized diagnostic assessment. Using the Georgia Performance Standards, Lexia profile, data gathered from LEA's and parents, we develop academic goals. Based upon goals, 30 minute tutoring sessions of reading and/or English/Language Arts and/or math are provided 5 days per week by a certified teacher. Also, 30 minutes per day is spent practicing skills using SRA labs, Lexia software, and other research-based curricula materials. Sessions will be conducted from 4:30 – 6:00 p.m. on Monday – Friday after-school and from 10:00 a.m. -11:00 a.m. Monday – Friday during the summer. Sessions are offered at a church with access to the fellowship hall, classrooms, computer lab, and an outside play area.

Program Summary:

Thomas Brown Publishing, LLC, management team has 75+ years of educational experience in classroom teaching, tutoring, and administration, mostly with under achieving students. Our program replicates the Test Preparation Skills Program designed and administered by Dr. Mason at a Title I middle school in southwest Georgia. After completing the program, 55% (105/192) of the students passed the CRCT thus enabling the middle school to achieve AYP for the first time in 2006 and again in 2007. Because of its success, the Test Preparation Skills Program was replicated in the second middle school and the high school. Small group sessions (8 students: 1 tutor) are conducted after school 2 days per week. Learning Focused School is the instructional model. An Individual Student Plan is developed in consultation with the student, parents and/or legal guardians, and the school/district staff. Parents receive a Monthly Progress Report. The CRCT Coach Book is used.

Program Summary:

Math & Reading Wizards Program has over nine (9) years of tutoring experience. The program is based on the use of worksheets that incorporates basic math and reading techniques. Our program has a 95% proven effective rate in helping target student populations improve academic achievement. By building upon the foundation established in schools, we are able to utilize repetition and basic conceptualization techniques that can be transferred into one and a half hour sessions, twice a week, immediately after school. Each student is given an initial assessment test in both math and reading. The student's achievement goal is tailored according to his/her assessment scores. The Math and Reading Wizards program is available for grades K-12, and the services are given, in-home, local schools and community centers. The use of traditional paper and pencil skills are emphasized throughout the program.

Min. Number of Students (each district): 12

Cost to District (per hour): \$75.00

Program Summary:

Math Boost has been providing tutoring services for 9 years to elementary through adult students. The principal tutor has 25 years of tutoring experience. Math Boost is highly effective at meeting students at their individual skill level, assessing their specific need and learning style, then patiently building confidence while gently bringing students to mastery levels. Math Boost is particularly successful at assisting low-achieving students to improve academic achievement on state standards and high stakes tests.

Math Boost's instructional approach is to use creative activities that are fun and meaningful to motivate and engage students in learning. Instruments and instructional materials aligned with state standards and in the format of the state assessments will be used to assess and instruct students.

Generally, 1 hour tutoring sessions twice weekly will be provided after school, on Saturdays and during the summer. Actual session length and frequency depend on student's attention span and need.

Cost to District (per hour): \$60

Program Summary:

I have over 5 years of experience tutoring students in subjects ranging from math to physics, This will be my first year applying as an SES Provider but have tutored for an SES Provider for the past two years.

Tutors will understand area(s) of weaknesses of the students by first assessing grade level test (Sample test included for 6th, 7th, 8th, and high school students). Then tutors will setup tutoring time on a one on one basis and will work on area(s) of improvement and will provide worksheets that are in line with the Georgia Mathematics Standards. Tutors will also help set goals with individual students to instill confidence, while monitoring their grade throughout the tutoring process. Tutors will also keep in contact with student's teacher so that the teacher, tutor, and parent(s) are synch with the effectiveness of the program. The length of the tutoring sessions will be an hour each week at the student's home or at a local community center (i.e. library, school, etc.) Model of instruction will be on a one on one basis and goal setting will be taught from the initial meeting of tutor and student. The students will go back to goals every week and update their status by bringing progress reports to tutors and tutor will reach out to student by asking questions on difficulty of reaching goals and helping them with those difficulties. Tutors will teach mini lessons: lesson in which a brief discussion on area of topic and will interact with students by doing sample problems. Assessments will be based upon the instructional examples given during time of tutoring and how well they did on the homework assigned by the tutors. Instructional materials provided to students will range from "Georgia CRCT and Practice Workbook" to lessons in students textbook.

Program Summary:

Our services provide a one-of-kind, individualized learning experience that satisfies the needs of every child. Each student is given an initial math and reading/language arts assessment to determine their academic strengths and weaknesses. Using the data gathered from the assessment, we work with the parent, student's teacher, and the school district to develop an individualized student plan, which meets the academic needs of the student. Our teaching strategies utilize repetition and basic conceptualization techniques that are conveyed in 1-2 hour sessions twice a week or on the weekend. With our 35 years of tutoring experience, our team of professionals provides services in home, local schools, and community centers. Our 8:1 student to teacher ratio is one component that has contributed to the success of our program. All instruction is secular and unbiased.

Program Summary:

Our tutoring program focuses on reading, language arts, and mathematics for grades K-8 using highly qualified and caring teachers. We believe the key to effective tutoring is the maintenance of small group learning environments with a maximum 1:7 teacher-student ratio. Each child's individual academic plan is carefully constructed using diagnostic information and parent input and instruction is designed to address student needs. Parents receive monthly progress reports and frequent contact with our staff. Our tutoring program is available before and after school with 1.5 - 3.0 hours of service available per week. Our program has a 29-year history of proven positive results with over 4,600 students served in 64 school districts in 5 states for the 2006-2007 school year.

	Cost to District (per hour): \$65

Program Summary:

New Generation Academy (NGA) was founded on the principle, "All children can learn if given the right tools and opportunity." While there are many educational tools available, NGA has chosen the Jamestown Reading Navigator (JRN) program. Although this program is a reading program we incorporate reading in other areas, with an emphasis on reading math. Many math students have an underlying reading problem that inhibits their ability to learn math concepts. The JRN curriculum has shown remarkable success in engaging reluctant and/or struggling readers. JRN uses high-interest materials, current events, and bold graphics, along with cutting edge technology to appeal to students.

NGA believes the student's ability to comprehend and read on grade level are important components of his/her academic success. Studies show good readers make better history, language arts, science, and especially math students. The JRN curriculum applies this philosophy in the "reading across curriculum" technique which is prevalent throughout the material. NGA also believes that every child is unique. Students who attend NGA are individually assessed and a customized academic plan is implemented for each student. A self-paced curriculum that incorporates one-on-one tutoring with supplemental group activities is used. NGA has a proven track record of significantly improving student academic performance. Many students who completed the program have gone on to receive various scholarships including the HOPE Scholarship. In addition to our dedication to each student, we credit our students' achievements to the commitment to the program and parent support. We welcome the opportunity to work with you in helping your student pursue academic success. Specific tutoring times will be worked out between parents and tutor, however, your child's success will require that we meet at least 2 to 3 times per week with sessions lasting 1 to 2 hours.

Student\Tutor Ratio: 8:1

Max. Number of Students (all districts): 5000

Min. Number of Students (each district): 20

Cost to District (per hour): \$70

Program Summary:

Next Level Learning has served Georgia students and their parents since 2006 with challenging and effective tutoring programs in Reading/Language Arts and Mathematics which connect with Georgia Performance Standards. A major focus is on developing strong self-confidence and the belief to succeed in school and their eventual careers. Students attending our program have showed consistent learning gains throughout, with the majority moving up at least one letter grade or higher. Our own proprietary curriculum focuses on individual needs, and students can directly apply what they have learned to regular class instruction. Tutoring is not a test preparation program but students will feel more confident when getting ready for state tests such as CRCT and EOCT, since we include what is tested in our program. English Language Learners and those with special needs who are mainstreamed during the regular school day are also very welcome to join our program, and we give careful attention to meeting their needs. We attach high importance to collaborating with the class teacher so that tutoring is relevant to each student's studies. In addition to collecting student data, we also pre-test to target the very specific areas in need of improvement. We consult each parent and present the program for their approval before starting into tutoring. Students and parents are also given the choice of different schedules, including weekday and weekend options. Tutoring can take place at the school, community facility or in the home. Our multilingual staff are available at any time through our toll-free line, and monthly progress reports to parents can be sent in English, Spanish or Haitian-Creole. We are honored to be one of the Georgia providers once again in 2010-11 and to be partners with students, parents and the schools in our NLL Success Teams.

Program Summary:

On The Right Course employs highly-trained instructional staff to help students reach their full academic potential. AAGF utilizes research-based curriculum and instructional techniques that assists students in making gains in reading, mathematics, and language arts. An individualized plan is developed based on assessment of the student's specific needs. We realize that not all students learn at the same rate or in the same manner. For this reason, highly-interactive, differentiated instructional methods are used to provide students with alternative means to grasp and master skills concepts. All instruction is based upon learning objectives prescribed by the Georgia Performance Standards and helping students meet or exceed the grade level expectations. Students meet at our office or other community locations. Students in select locations may also participate in supplemental afterschool offerings such as golfing, enrichment activities, mentoring, and field trips, at no cost, as a part of our interdisciplinary approach.

PEPP is devoted to providing educational services in all content area to students in grades 9 -12 by utilizing interactive, engaging curriculum and online technology. PEPP combines the benefits of both asynchronous and synchronous learning to create a dynamic research based program that has a proven record of raising student achievement. Our tutoring consists of the following elements: 1. Initial Diagnostic Assessment through Compass Learning and/or Plato Learning to analyze strengths and weakness. Tutors in collaboration with parents and schools, generate an Individualized Student Learning Plan that is aligned to district goals and state standards. 2. Tutoring sessions will last two hours per day, up to two days per week. We also offer Saturday services and summer programming. Tutors will provide specialized instruction one-to-one or within small groups of students based on individual need, and 24/7 unlimited accesses to online assignments. Academic achievement is the heart of future success!

Student\Tutor Ratio: 5-1

Max. Number of Students (all districts): 100

Min. Number of Students (each district): 15

Cost to District (per hour): \$55.00

Program Summary:

Phyl 's Academy Preparatory services are as follows: Summer Tutorial, After-School Tutorial, and In-School Individualized Tutorial. These programs have been offered successfully for the past 20 years and have helped low performing students that were failing.

We will pre-test using the assessment tools that are part of the computer based software curriculum.

The length of the tutoring session will be one hour and the tutorial sessions will be held twice per week for 15 weeks per student.

We will utilize the TEACH method for direct instruction of identified skill needs. Each identified skill will be pre-taught by the tutor and then reinforcement of the skill will be turned over to the computer-based software. Tutoring sessions will be tailored to each student's academic level and needs as the curriculum (Study Island) parallels the Georgia Performance Standards. The ISP will be for the identifiable student area of weakness. We will utilize school reports, the pre-test, and any other needed batteries that may help to indicate what those weaknesses are. These goals will be translated into short term objectives that will enable us to create a timeline. We will use our own local facility, a school with a computer lab, media center, classrooms, and playgrounds and a church school facility. We will use a computer-based software system called Study Island, a research-based program that parallels the Georgia Performance Standards and CRCT exams in the areas of reading, language arts, and math for K-6th grade. This will be used along with appropriate visuals and manipulative which will help to reinforce taught concepts.

Program Summary:

Premier Academy Inc. believes that children are the world's most precious jewels. We offer a blended curriculum which consists of computer based instruction and direct tutor instruction. Premier Academy Inc.'s instructional programs are both engaging and effective; we have a proven track record of success in accelerating the learning of diverse learners. The instructional program is delivered in a small group learning environment 2-3 times a week. Our tutorial program is available before and after school, on Saturdays and during the summer. Students are assessed at the beginning of the instructional program and individualized student plans are developed to enable tutors to create tailored lessons based on a child's needs. We offer a safe and caring environment to enhance student learning. We provide nutritional snacks and transportation is available at select schools.

Program Summary:

For over 5 years, PROGRAM & PROJECT MANAGEMENT SERVICES® has provided instructions to students in K - 8 grades (elementary and middle school) in reading and math. Tutoring is provided three times per week, on site at the school or at a centrally-located community organization or church. Elementary tutoring sessions are one hour long, while middle school sessions are 90 minutes. Saturday tutoring sessions are 2.5 hours and is provided, depending on student/family scheduling needs and agreements with the local school district.

Students receive: 1) An initial assessment that identifies student's skill mastery and deficiencies; 2) An Individual Learning Plan that focuses on specific goals for targeting skill deficiencies; 3) Multiple tutoring sessions provided by state certified tutors; 4) Progress Reports that communicate academic progress data to parents, classroom teachers and District.

PROGRAM & PROJECT MANAGEMENT SERVICES® employs multiple researched based instructional methods and techniques such as: direct instruction, time on task, one-on-one tutoring, with state certified teachers.

Program Summary:

Project Educate Me Learning Center specializes in tutoring Mathematics, Reading, and Language Arts to students in grades 1st – 12th. The expertise of our educators that consist of certified teachers, counselors, and school administrators have designed an effective research-based instructional tutorial program with proven results in closing academic gaps. Tutorial sessions assist in preparing students in taking the CRCT, GHSGT, and passing the EOCT. Students enrolled with PEM have the unique opportunity to take advantage of various tutoring methods: one-on-one sessions, small group sessions, computer-assisted sessions, and on-line distance learning sessions. Students who are utilizing distance learning will receive pre-installed individualized laptop computers. Customized individual learning plans are written that will guide the tutorial sessions. Posttest results will measure each student's growth and a plan of action is given to parents for a continuation of academic success.

Program Summary:

Project Rebound Inc. has been providing academic and life skills services to youth for over 15 years, with a documented history of student success. PRI utilizes a methodology, which is a concept-driven approach, seeking to provide a creative environment unlike the usual classroom setting. It is a holistic approach which emphasizes parent involvement as a key component. The curriculum provides a challenging and fun-filled environment. All tutorial staff at Project Rebound, Inc. is highly qualified to provide instruction in the areas of math, reading, and language arts. Staff is also trained to apply strategies and techniques of the curriculum in a secular, neutral, and non-ideological setting. Student assessment is on-going, utilizing reliable and valid instruments to gauge the general level of mastery for each student. The goal of the program is to increase school attendance, academic achievement, self esteem and family involvement. Each session is a 2-hour block, 1 hour per subject. A minimum of 5 students per district is required to commence services. Our motto is: "We don't just tutor for testing, we mentor life."

Min. Number of Students (each district):	15
Cost to District (per hour):	\$65

Program Summary:

Reach for Tomorrow (RFT) has been an approved SES provider in 15 states for grades K-12 for the past 3 years. Students have shown an average grade level gain of 2 or more grade levels in English Language Arts and Math in less that 30 hours. Extralearning Online is used to deliver instruction to students which is a self-paced, individualized, web based, computer delivered, secular, neutral, and non-ideological mastery learning program for grades K-12.

Tutoring sessions are 1 hour after school for up to 4 days per week using school based computers and the Internet- no software required. RFT uses only local teachers who are trained on the program to work with students using customized curricula for each student. Students are assessed using criteria based tests embedded in the program for grades K-12 as well as nationally normed Test of Adult Basic Education (TABE) for grades 5-12. Individual Programs of Study are created to set goals for improvement of at least .5 grade level in English/Language Arts and 1 grade level in Math.

Each lesson progresses as follows: read a text book, providing instructional content in small segments; questions to check the student's understanding of what they have read; a short lesson quiz to measure their level of mastery of the lesson; and activities to reinforce the content presented in the book such as hands on activities such as BrainPops (interactive animated shorts) for the kinesthetic learner and streaming videos for the visual learner to further expand the content presented in the book. The lesson ends at the completion of these visual assignments, and the student moves on to the next lesson. Each student may work with a live tutor online from after school until midnight 7 days per week to assist with homework at no cost.

---	--

Program Summary:

Reading, Phonics, Math & More has been in business for 8 years and has been an SES provider since 2006-2007. Students are given a Preliminary Skills Assessment to determine their current level of functional proficiency. RPM has demonstrated increases in student achievement when the students attend regularly and parents are involved. A conference is held with the parents to review the results of the testing and to introduce them to the individualized program of instruction RPM has developed for their child. Instruction is done by certified teachers who currently work in or are retired from the area school systems. Students are taught in very small groups of 4 students to one teacher for grades 4 and above, and 1 on 1 instruction for students in kindergarten through 3rd grade. The child attends the program 1.5 hours, 2 days a week, for a total of 3-4 hours a week to receive individualized instruction in reading and math. The program has been very successful at improving the reading and math skills of all of the students, assisting students in passing CRCT exams, GHSGT, and increasing the self confidence of the student. The facility is newly constructed and provides a spacious learning environment for all students.

Program Summary:

Reading, Writing, and Arithmetic Tutorial Service, LLC has successfully tutored students for 7 years and for 5 years as an SES provider. Our qualified staff engages young minds from K- 12 in the subjects of Reading, Mathematics, and Science. The effectiveness of our program exemplifies success due to the removal of six schools from the Needs Improvement list. We administer pre- and post-test assessments to determine the area(s) of deficiency. We provide online tutoring at LEA location, business, community center, place of worship, and Reading, Writing, and Arithmetic's site. Students will be monitored by a tutor for four hours per week. Tutor/student ratio is 1:10. Transportation is provided at select sites. After completion of tutorial sessions, students earn the right to keep the computer as a tool to continue online services the entire school year. "Take our hand as we lead your child to academic success."

Program Summary:

The Reef House After-School Program offers children the opportunity to boost their grades in reading, language arts and math, by participating in a uniquely active learning experience. Using the Georgia Performance Standards (GPS) measured by the CRCT and GHS GT, our students receive individualized learning goals and objectives and participate in two-hour work sessions, twice per week or more (as needed). For over seven years, special success has been achieved at the Reef House where we believe that education is vital for success. Our 3,500 square foot facility boasts five educational spaces, a computer lab, library, multimedia, recreation, and group discussion room. Snacks are provided to all students, transportation is available for select schools, and incentives are given for outstanding performance.

Program Summary:

Refugee Family Services has been serving refugee and immigrant students in DeKalb School System Schools for 10+ years with afterschool and student support services. We are now expanding to include specialized tutoring in Reading, English language, and vocabulary to students whose first language is not English in Needs Improvement Schools. Small groups of students will be led by trained personnel in a schedule that enables students to engage in setting learning goals and improve academic skills through research based curriculum. Sessions will be an average of 2 hours per session and take place once or twice per week. All students will be further supported by a multilingual and multicultural staff of school liaisons, who will ensure that parents are informed of the child's progress on a regular basis.

Program Summary:

Regeneration has provided an array of services, including tutoring to children with special needs in Maryland, the District of Columbia and Georgia for over 17 years. Our tutoring program is aligned with Georgia's Performance Standards. Students involved in the program have shown significant improvement in report card grades, test scores, and standardized test. Regeneration's tutoring sessions typically occur twice a week for 1 to 2 hours each session. Regeneration Tutoring program implements a comprehensive assessment model to ascertain student's individualized needs prior to enrollment. Student progress in the program will be continuously monitored using iTargetTeach Fundamentals Assessments, administered in weekly and end of unit quizzes. Regeneration Tutoring develops a timetable for each student's progress that includes clear goals for the student. Tutoring occurs in schools, student's homes, community centers and other identified locations.

Program Summary:

Reunited's educational staff has over 50 years combined experience in educational services. As a new Georgia SES Provider Reunited's staff has collectively developed instructional methods that are student-centered and researched based. Tutoring sessions include small group (8:1) or 1:1 instruction depending on students' needs. We offer a curriculum that is very "hands-on" and interactive to deepen students' understanding of subject matter and hold their interest. Our reading recovery program integrates the reading process, comprehension, vocabulary, fluency, and writing and is designed to motivate students to read for both information and enjoyment. Our math program helps students build their basic math skills and learn skills and concepts crucial to achieving grade-level success.

Tutoring sessions are offered twice per week for one and a half hours at the student's neighborhood school, or in their home. Alternatively, students may elect to attend a three hour tutoring session on Saturday mornings at our office, or a satellite location.

Program Summary:

Rhymes & Reasons employs highly-trained instructional staff that works with students to help them reach their full potential. Our program uses scientifically-validated curriculum and instructional techniques to help students make significant gains in reading, mathematics, and English language arts. We tailor an individualized instructional plan based upon the student's unique academic needs. We realize that not all students learn at the same rate or manner. For this reason, highly-interactive differentiated instructional methods are used to provide students with alternative means to grasp and master skills concepts. Students progress at their own pace to achieve weekly and overall learning targets, all of which is based on learning objectives prescribed by the Georgia Performance Standards. Students meet with tutors at our office or at several community locations. Students in select locations may also participate in supplemental afterschool offerings, such as enrichment activities, field trips, physical fitness, etc.

Program Summary:

Richmond County Schools System (RCSS) has a staff of highly motivated professionals who have a proven record of providing quality educational service within the public and private sector. Staff members consist of certified school administrators, instructional specialists, teachers, and former military personnel. RCSS has certified instructional staff that has successfully increased the academic achievement of students in the areas of mathematics, reading, and writing. Free tutoring in reading/language areas and mathematics is offered for students in grades K-12. Data can be provided for the area/school in which Saturday School Program is located.

Services are offered at school sites. RCSS has proven to have a positive impact on the district, state and national assessments for the Title I schools. All students will be administered a pre-test and will be tutored according to the results of the pre-test and the student's progression, using Georgia Performance Standards (GPS) measured by the CRCT and GHSQT. Students will receive individualized learning goals and objectives. Students will participate in tutorial sessions After School, Weekends, and Summers.

RCSS is designed to develop young minds through motivation. Students will receive individualized instruction in various formats such as software-based interactive learning and multiple strategies adapted to the individual learning style. The Program provides comprehensive assessments, quality instruction, and progress reports. Lesson plans will be individualized and designed according to the state standards and will target students' area(s) of weakness and strength.

Program Summary:

Rocket Learning, a minority owned and operated company, was founded to provide high quality supplemental educational services. Our objective is to help our students acquire the skills they need to succeed in school and in life. We have successfully tutored over 100,000 students and achieved an average student gain of 22% in Literacy and 31% in Math on criterion referenced assessments.

Our research-based approach has produced significant achievement gains. Rocket Learning has developed an extensive catalog of proprietary instructional materials based on these methodologies, including small group instruction, project based learning and thematic integration, assessment driven instruction, and direct instruction. Our highly experienced, motivated and qualified teaching staff drives achievement.

We typically offer tutoring services in school facilities. Occasionally, we utilize nearby community facilities. We offer instruction on weekdays, weekends and during the summer to provide parents and students the flexibility of choosing a session best suited for their schedules.

Program Summary:

The Saved by the Bell Supplemental Education Service Center proposed by S & V Educational Systems, Inc. will offer instruction in reading/language arts and math in the Bibb County Middle Georgia area. Utilizing the Direct Instruction model, the Saved by the Bell program will be an effective intervention for students struggling to meet performance standards.

The instructional program has been designed to address the individual needs of each of the participating schools. Although the services provided will be similar across LEA sites, the improved outcomes will specifically address the immediate needs defined by each of the sites. The program will operate three hours a day Monday thru Thursday from 4:00pm-7:00pm (12 hours/week). The summer program will operate daily 9:00am-1:00pm for 4 weeks prior to the opening of school.

Program Summary:

SAP National is an educational-based program with over ten years of experience in educating students from diverse learning and social environments. SAP National uses a research-based model that is aligned with the Georgia Performance Standards (GPS) to help increase student achievement amongst middle and high school students. SAP National's program is designed to increase high school graduation rates, decrease high school drop-out rates, increase scholarship eligibility, and increase post-secondary enrollment. SAP National has proven results in increasing students' achievement scores on statewide assessments (i.e. CRCT, GHSGT, EOCT); along with increasing ACT test scores (by 5 points) and SAT test scores (by 200 points). SAP National's program design increases students' levels of proficiency in the areas of mathematics, reading, language arts, and science for both middle and high school students in an one-on-one and/or group learning setting.

Program Summary:

Savannah Chatham County Public School System (SCCPSS) has a successful history of individualized tutorial assistance; however, in recent years SCCPSS tutorials have focused on mastery of the Georgia Performance Standards (GPS). Data from SCCPSS district tutorial programs confirm improved academic achievement resulting in mastery of GPS and passing scores on State assessments.

Afterschool SES tutorial sessions of 1½ hours will be provided at least two days per week for elementary and middle school students and at least one day for high school students. Sessions will have a maximum of eight students per teacher.

SES instruction utilizing research based delivery strategies and materials will be individually focused addressing students' assessed needs in mastering GPS and State assessments.

SES will have access to SCCPSS's facilities, instructional materials, and instructional technology. SES teachers will differentiate instruction using the district's resources.

Program Summary:

Scroggins Mathematics Services Tutorial Program was founded in 2007 by Sandra Scroggins, a former Title I Instructional Coach and Middle School Mathematics teacher with over 12 years of experience in education. Scroggins Mathematics Services tutors students in mathematics and has a proven record for improving students' achievement on the CRCT, EOCT and in the classroom. Scroggins Mathematics Services uses researched based programs; Triumph Learning Coach Series and Study Island, a web based Test Prep program. The small group instruction, allows the instructors to identify and work on students' individual weaknesses. Scroggins Mathematics Services believes that technology plays an important role in improving student achievement and therefore uses web-based assessments. Manipulatives, computers, laptops, Interactive boards, and PowerPoint presentations are used for instruction. The tutoring sessions are 1 ½ to 2 hours after school, twice weekly or 1 to 4 hours on Saturdays and during the summer.

Student\Tutor Ratio:	8-1
Max. Number of Students (all districts):	200
Min. Number of Students (each district):	8
Cost to District (per hour):	\$0.00

Program Summary:

Seminole County SES Program will operate at Seminole County Middle/High School (SCMHS) as an integral part of the school's instructional program. In addition to state mandated tests, SCMHS students are tested on Georgia's Online Assessment System (OAS). Any students who does not show mastery of the block of standards tested in a given benchmark will be given the choice of attending after school classes or attending study skills sessions during the school day for remediation. Parents of students eligible for SES may request SES services for their student. SES class sessions of 8 students will be conducted from 3:30 to 5:30 p.m. twice weekly for 27 weeks during the school year. Teachers, counselors, and parents will collaboratively develop Individual Student Plans based on state test scores for each participant to address curriculum standards not mastered in math, reading, or language arts. SES teachers will provide instruction after school in regular content classrooms with Georgia Frameworks as a guide using GMADE and GREAD print materials while monitoring students' level of understanding using observation techniques, GMADE or GREAD tests, or allowing students to retest on OAS. Any student having difficulty mastering a standard will receive interventions using differentiated instructional strategies appropriate to the child's level of understanding or his/her learning style, including Internet-based instructional programs, manipulatives, and alternative print materials. Progress charts will be maintained for each participant and will be analyzed by regular, special ed, and SES teachers to determine the interventions needed to help students stay on track with the regular curriculum. When students complete instruction within a benchmark, they will be tested again for mastery using OAS.

Program Summary:

Serenity Sheltering Arms believes that "All Children Can Learn" and provides "Personalized Instruction". The agency offers tutoring in Basic Skills, Math, Reading, English/Language, CRCT, EOCT, the GHSGT and the GED. The curriculum is aligned with the Georgia Performance Standards and has proven to be successful. The model of instruction is pre-testing to access the student's beginning level and learning style. Goals and individualized timelines are set for each student. Teaching/tutoring includes hands on material, computer lessons and test taking strategies. Mastery tests are given and weekly progress reports are given to the parents. The tutorial sessions are held at the school, home or other community facilities. Our tutors are highly qualified and trained. The tutoring session is two days per week for two hours per day. Optional sessions are on Saturdays for four hours. The tutor-student ratio is 10-1 for computer-based lessons and 8-1 for hands on lessons.

Program Summary:

Solid Rock Academy, a licensed SACS accredited school, has served children for more than twenty-five years. Individualized student plans are developed using the Georgia Performance Standards, Coach Series, and IOWA Test of Basic Skills. SES Evaluation 2008-2009 reported 72.4% of students made positive gains in Math and 74.1% in Reading. Tutoring sessions consist of two hour blocks, twice a week in Math and Language Arts. These sessions occur after school 3:00 -7:00, Saturday 8:00 a.m.-12:00 p.m. and summer 8:00 a.m-6:00 p.m. Our interactive instructional model is: review assignments, introduce the session standards, small group activities, assess and set goals. Student needs and goals are developed using pre/post assessments, parent conference and ITBS. Student progress is measured and compared using the ITBS and Post Assessments. Our facilities, equipment and instructional materials are inclusive of high technology which increases student's achievement. SRA has been a SES provider since November 3, 2003.

Program Summary:

Footprints Christian Academy is a fully accredited learning institution that will be a Georgia Supplemental Education Service provider. Footprints has tutored students in grades 1-12 in the following subjects-Math, Language, Science, and Social Studies for the past three years. A research based curriculum and small group instruction will be used to improve academic achievement. Upon a pre-assessment the frequency of tutorial sessions will be determined along with their individual goals and/or objectives. Our facility is equipped with supplemental curriculum materials, technology and software to address the learning modality of each student. Each session will last sixty minutes depending on the attention span of the child and the ratio will be no more than 6 to 1. Weekly assessments, homework, and a post-assessment will be conducted at the end of the tutorial period. The provider will monitor and track each student's performance.

Cost to District (per hour): \$60

Program Summary:

Star Cooper, Inc. enrichment services concentrates on assisting students in grades K-12 with achieving high scores in the subjects of Reading, Language Arts, and Math. Emphasis is placed on acquisition of comprehension through practice, repetition, drill, and memorization. Perseverance is the key to our highly effective program. We never give up! Equipped with over 32 years of instructional experience, our tutors understand that "Beliefs Affect Our Focus" - we have positive beliefs about our students. Our uniquely designed tutorial program implements the New Georgia Performance Standards and is proven to effectively improve academic achievement. Initially, we assess the students to identify deficient skills. Through a collaborative effort with parents and students, an Individual Student Plan (ISP) is developed and a personal portfolio is created for the student. Portfolios contain ISPs, signed student contracts, pre-established goals with time lines, student work, bi-weekly assessments, and progress reports. In order for our program to be successful, 1.5 hours, twice per week is mandatory. Additional sessions can also be arranged to increase retention levels and allot more time for one-on-one instruction when there is a group setting. Sessions are conducted after school, on the weekend, and during summer months at or office or at one of our satellite locations, i.e. local library, church, or community center. The first 10 minutes of every session entails a recap followed by speed and comprehension drills. Within the next hour we focus on new material and conduct practice activities. The final 20 minutes includes wrap up activities and mini assessments. We incorporate the use of workbooks, computer based software programs, worksheets, study guide handouts, and a variety of hands on activities to provide a broad range of approaches. All supplies such as paper and pencils are provided. In addition, snacks are available free of charge for the students.

Program Summary:

Students Opting 4 Success (S.O.4.S) offers a comprehensive K-12 tutorial program in ELA/Reading and Math. Our demonstrated record of effectiveness is evident by of the 91% of the students who finished our program 100% of them met or exceeded their goals. To ensure student success on the CRCT, GHS GT, and EOCT we provide individualized and targeted instruction correlated to the Georgia Performance Standards. Every session includes time for skill demonstration and guided practice by the tutor, and independent practice by the student.

Upon enrollment, an Individual Student Plan with specific goals and interventions for success is created based on the results of an initial diagnostic assessment, review of students' educational experiences, and analysis of previous test performance data. Observations and frequent benchmark assessments serve as the basis for determining student progress. Our highly qualified and caring professionals tutor at times and locations convenient for families.

Min. Number of Students (each district): 5

Cost to District (per hour): \$65

Program Summary:

Summit Learning Services is the fastest growing tutoring company in the USA. Though this is our 1st year serving Georgia, we have been a Florida SES provider for 3 years. We will also be in 15 new states this upcoming year.

Summit is one of the few providers which require every tutor to be at minimum a state certified teacher. We feel your child deserves the highest quality tutoring available. In fact, your child will receive the same tutoring as we charge thousands of dollars to our private paying students.

Our standard tutoring session is 1-2 hours each session and 2 sessions each week. Students have the option of receiving tutoring in a variety of locations.

Sixty percent of Summit students scored level 3 (proficient) on the Florida Comprehensive Achievement Test in reading and math this past year. Our gains were among the highest in the state of Florida.

Program Summary:

Sunshine Tutoring & Learning Center, LLC provides after-school and weekend tutoring in Reading/Language Arts, Math, Science, and Social Studies to grades K-12. Small groups (1-3 students) work a tutor on their Individualized Educational Enrichment Plan. Plans take information using (1) previous standardized scores, (2) curriculum-based pre-tests, (3) recommendations from the teacher's related to the student, and (4) parent input. Each student's plan is unique, emphasizing subjects and skills that the student needs to develop. For each subject, a clearly defined set of weekly skill-building goals are established. Students meet two to three times per week at the center. The program combines individualized instruction, ability grouping and periodic assessment among other proven education strategies. Program goals are to increase student performance in key areas and build confidence in the ability to learn. Sunshine Tutoring & Learning Center, LLC has a strong history of documented test score improvements and student success. This information is at the center, all of the students at the center passed the CRCT this past spring (2009).

The CEO/President has 15 years of experience in tutoring students starting out in the Public Library. Presently, Sunshine Tutoring and Learning Center, LLC is located in its own building which contains five computers, individualized seating, three televisions, and eighty different resource books that are aligned with GPS. The program has been effective in helping target students improve academic achievement on State Standards which includes passing the CRCT, EOCT, GHSGT, and improvements in individualized content areas.

Program Summary:

The Synergistic Youth Enterprises, Inc. (SYE) SES Tutoring Accelerates Realization of Success Program (SYE STARS) increases middle and high school students' achievement using a research-based, curriculum that aligns with the Georgia Performance Standards. Tutoring is provided by highly qualified instructors. The SYE STARS Program operates based upon the needs of the students its serves. Hours are Monday-Friday after-school and on specified Saturdays. Each tutoring session will last two hours. Tutoring may take place in the students' home, at the SYE Office in Union City, Georgia that has a large computer lab; in the local schools where access is provided; and/or in other locations near students from the target schools. SYE will use validated and reliable methods for assessing students' abilities in order to provide customized services. SYE has extensive experience helping low-income, first-generation students to improve their academic achievement and succeed in school.

Program Summary:

Sylvan Learning Center has been providing tutoring for more than 30 years. Our instruction is based on individual students' academic assessments and customized programming to address the students' needs.

Based on the results of these assessments, and the academic goals of the student/family and the school district, we design a program that addresses individual students' academic needs.

Our teachers are state certified and meet national Sylvan certifications. Our instruction includes enrichment, and remediation in specific concepts or skills, CRCT Preparation, Georgia High School Graduation Test Prep, and instruction in: Reading, Language Arts, Writing, Math (including: Algebra I/II, Geometry, Calculus, Trigonometry), Georgia High School Graduation Subject Tests: Social Studies, Science, English Language Art, Math & All EOCT.

Our materials encompass a wide variety of research based and nationally recognized books, materials, hands-on manipulatives and computer software.

We meet with parents on a consistent basis and discuss their child's growth and progress in our program. We evaluate academic growth through progress assessments which document the skills that the student has mastered.

Our approach to Supplemental Education is based on reliable research, common sense, and best practices.

Program Summary:

Sylvan Learning (981) has been a Georgia SES provider since 2010, tutoring over 500 SES students. We are part of the largest tutoring company in the United States with over 2 million students successfully served over the past 30 years. Each student receives standardized assessments from which we build an Individual Instruction Plan. Students attend one of our neighborhood learning centers and receive 1 to 2 hour sessions twice each week. Instruction is provided by trained Sylvan teachers using proven Sylvan materials with no more than 3 students per teacher. Transportation is provided between the school and the learning center for many schools. Sylvan Learning (981) provides the same tutoring to SES students that is advertised throughout the country and has proved to be effective year after year. On average, after 36 hours of instruction, Sylvan students improve 1.5 grade levels in reading and 1.8 grade levels in math.

Program Summary:

Sylvan Learning Center has provided tutoring to more than two million students over 25 years. Our instruction is based on individual student academic assessments. Through mastery learning we remediate skill gaps; through personalized lesson plans, we enhance academic achievement and increase confidence. The tests administered depend on the type of program necessary for supplementing academic achievement in reading, math, or language arts. These tests include word analysis testing, California Achievement testing, the Gray Oral Reading Test, and a receptive/expressive vocabulary assessment. Each student's program includes generalized long term goals as well as specific short term goals that directly align with the current Georgia Performance Standards. All instructional materials are provided at the teaching facility. In addition to the diagnostic testing, a progress test is administered at the conclusion of the supplemental program. A standard tutoring session is one to two hours in length. Students have the option to attend one or two days per week. The teaching schedule is Monday-Thursday, 4:00-7:00 pm, and Saturday, 9:30-1:30 pm. The facility is located at 3312 Northside Dr., A-115, Macon, GA. Sylvan Learning Center has six years experience as a Georgia SES Provider.

Cost to District (per hour):	\$45

Program Summary:

Sylvan Learning Center of Augusta has provided diagnostic, prescriptive, individualized programs of instruction in reading and math for the past twenty-one years and for the past four years as an SES provider for NCLB students. We have a proven history of success. Sylvan Learning Centers nationwide are the leaders in supplemental programs in reading, math, and more! Our reading students average growth, measured by standardized achievement testing, in 36 hours of instruction is 1.1 grade equivalent on progress tests, and our math students improve by 1.3 grade equivalent. Parents recognize improvement in confidence and independence. We begin by providing a diagnostic assessment, using a state standardized test, to evaluate the mastery of critical grade level skills, and to identify skill needs. Then an individualized program of instruction targeting the skills not yet mastered is developed. We provide teacher guided instruction, practice, and assessment for mastery. Sylvan provides a mastery learning program requiring that skills are mastered before advancing to more advanced skills. Instruction is delivered in a three on one student/teacher ratio. Each student has their own individualized program which is updated daily by a Director of Education to determine mastery of assigned skills and assignment of more advanced skills. We meet with parents and teachers, if requested, throughout the program to share progress. Students typically attend 2-4 hours a week selecting instruction times from 3:30-8:30 p.m. Monday-Friday or Saturday/Sundays 3:30-6:30 p.m. Our center at 229 Furys Ferry Road, Unit 119 provides a positive, professional, motivational environment where each student has our individual attention. We have provided SES services for the past four years with outstanding parent and student reviews.

Program Summary:

For more than twenty five years, Sylvan has given over a million children the skills to do better in school and the confidence to do better in everything else, and we can do the same for your child. Sylvan has a unique approach to learning - the Sylvan Advantage - which helps your child find out learning feels good. It's a proven process that works. It starts with a Sylvan Sills Assessment to identify your child's specific strengths and weaknesses. Then our highly trained and certified teachers provide individual attention and personalized lesson plans. We keep you involved with progress reports every step of the way. We give your child the opportunity to learn and succeed with customized programs to meet every need. We offer programs in math and reading to prepare for the standardized state mandated test. Located in Covington, Georgia, more than 80% of our enrolled students improved one (1) grade level equivalent after 36 hours of instruction. In most cases, students received four (4) hours of instruction weekly in the highly effective 3 students to 1 teacher model of instruction ratio. We provide all instructional materials and use manipulatives, workbooks, computer software to assist children in learning. Sylvan Learning Center of Covington has been an approved SES provider since 2004 and we are an accredited SACS CASI and CITA school.

Program Summary:

Sylvan Learning Center provides supplemental education in the areas of reading, writing, and mathematics. Sylvan administers pre-assessments to determine each students' skill gaps and individual academic needs, creates personalized prescriptions, and provides individualized instructional sessions. Students will learn from state certified and highly trained Sylvan instructors, who motivate students through praise and a token reward system; instruction includes the use of manipulative computers, texts, and other learning tools. Sylvan instruction is based on the mastery learning process; each missing skill, identified in the pre-assessment, is learned, practiced, and applied until mastered by the student. A minimum of (2) one-hour instructional sessions per week, or eight sessions per month, is required for adequate exposure to and retention of educational material. On average, each student will progress one academic grade level in thirty-six instructional hours, as evidenced on standardized assessment results.

Program Summary:

Sylvan Learning Center of Savannah, a Georgia SES Provider for over 6 years, offers an approach to learning which enables the student to excel in the classroom; and develop confidence and a love of learning that lasts a lifetime. Sylvan uses the Sylvan Skills Assessment to identify a student's specific needs. A personalized learning program is then created and certified teachers use direct instruction and mastery learning to ensure true understanding. A maximum of three students per teacher meet for one to two hour sessions, after school or on the weekend. Students attend sessions at the Sylvan Learning Center in Savannah or through an online learning environment in their home or community. Students work directly with a teacher for instruction and for guided and independent practice. Computer software and hundreds of school materials are available for students until they reach mastery. Parents receive progress reports during scheduled conferences.

Program Summary:

At Sylvan Learning Center, we provide quality educational instruction based on each individual child's needs. These needs are identified through testing designed to identify your child's strengths and weaknesses. The results of these tests are used to develop an individualized curriculum and goals for your child to be implemented by our certified and caring teachers. We have over 150 years of teaching experience at our center. Sessions last in hour increments after school and on weekends usually in two hour blocks throughout the school year and part of summer. It is recommended that the student attend up to 4 hours per week. Through communication with the parents and the school, Sylvan Learning Center provides the solution that has helped over 1 million children across the country reach the ultimate goal of confidence in themselves to be successful in the classroom and in life. Instruction time includes Guided Practice – one on one instruction, Independent Practice and Mastery. All materials are provided to the students and online students will receive a kit to allow them to access the Sylvan Online program. The previous owners were SES approved so we worked with the program through them. Both of us have been with Sylvan for a total of 16 years and have worked with NCLB students at several centers in the Atlanta area since the program began.

Program Summary:

The Sylvan NCLB program is the same program advertised on television. Sylvan Learning Centers are conveniently located in Clayton County, Fayetteville, Stockbridge, Oakwood, Peachtree City and Cumming. For more information and directions visit www.educate.com or call 770-684-0861.

Sylvan has been a SES provider in Georgia since 2003 and has helped over 1000 NCLB students. NCLB students participate in the same instruction sessions as all other Sylvan students. No Child Left Behind students have averaged ¼ of a grade level increase on the California Achievement Test over their three months in the Sylvan Reading or Math programs. Our goal is to develop students' academic skills so they can become confident, independent learners.

Instruction is done at local Sylvan Centers so that all of the Sylvan learning materials, textbooks, and computer programs are available. The student teacher ratio is typically three students to one teacher. Students attend Sylvan two times each week for 1 or 2 hours depending on their age. The centers are open for instruction Monday through Thursday from 3:30 to 7:30 PM and on Saturdays from 9:30 AM to 12:30 PM.

The first step is an individually administered diagnostic assessment to pinpoint skill gaps. These skill gaps form the educational prescription individually tailored to meet your child's needs. Each student has a unique lesson plan that is updated after each hour of instruction. The Sylvan educational prescription is linked to the Georgia Performance Standards so instruction impacts students' performance in Georgia classrooms. Sylvan teaches to mastery - we do not go on to a new skill until the student has mastered the previous skill. We provide written monthly reports to parents and classroom teachers on student progress in mastering specific skills.

Program Summary:

Our directors have been in the tutoring field for over 8 years and our company has proven results based on our curriculum. Tabula Rasa is able to offer services to students who are English language learners and we will provide the parents with materials in their native language. We are dedicated to improving student grades and offer a variety of instruction methods, including one-on-one tutoring, small groups, and large groups. Tabula Rasa Tutoring works with the parents to create a schedule that works for them, so we offer instruction afterschool, before school, summers, and weekends. We also are flexible with the length of the tutoring sessions. A student may tutor up to 4 hours per week, but weekday sessions will not exceed 2 hours. Tabula Rasa is also flexible with the location of tutoring services, we offer tutoring in-home, school, library, church and any other location convenient for the parent.

Program Summary:

The Aya Center is an academic community organization developed by professional educators and therapists who were deeply concerned with the need for substantive youth development services in Durham, NC. The mission of our organization is to awaken the Aya of our students by strengthening persons experiencing educational deficiencies, developmental disabilities, emotional and behavioral challenges through the provision of academic tutoring, therapeutic mentoring, and community support services. Out of that dedication to the community well being, the Aya Center was established in 2003 to serve women in need and at risk youth. Since then, The Aya Center has tutored and mentored over 1,200 motivated yet underserved students. The Aya Center has been widely recognized as a highly effective academic and social development model. The Aya Center tutoring sessions is offered two times per week for an hour and half per session at the LEA approved site, community center, or student's home (as needed). Each student assigned to The Aya Center will receive an individual learning plan upon completing their pre-assessment to determine their strengths and weaknesses. Our academic and social approach to learning provides a nurturing environment for students to concentrate and feel comfortable while learning. Our program has proven effective in developing the complete student, both academically and behaviorally. We work in close collaboration with parent/guardians, schools, community organizations and a broad range of academic and behavioral specialists. Our consistent, individualized approach to youth development and learning ensures all students receive a tailor made educational curriculum. As a result, The Aya Center's proven experience and community based approach to learning has now helped over 250 families and hundreds of students in North Carolina improve academically, reach individual goals, and build a basis for a lifetime of positive growth, development and learning.

Program Summary:

The Kennedy Learning Group (KLG) is a K-12 tutorial service that utilizes research-based material to ensure academic success. Tutoring sessions are provided at the student's home, library, or at a location of the parent's choice. Our highly qualified professionals tutor at times that are convenient for both parent and student. (Two-hour sessions are provided twice a week.)

KLG's tutors are not only highly qualified, but are trained to serve the academic needs of a wide array of students. Students are first given a pre-assessment test to determine their areas of weakness. These areas are then used to develop an academic plan of remediation.

After year two, we not only continue to receive rave reviews from parents whose child's grades have gone up 1-2 letter grades, but our students continue to do well on the CRCT, EOCT and GHSQT! Become a part of our success rate by joining KLG today!

Program Summary:

The Tutor Lab was established by an educator with over 20 years of experience and a proven record of increased student achievement. Our program model consists of a highly individualized student plan to move students to mastery of the Georgia Performance Standards, through small group (up to 6:1), explicit, direct instruction. We give students a Pre-Test to determine their academic strengths and weaknesses and additional academic information is obtained from the parents and teachers. Monthly progress reports are provided to parents and progress updates are provided to teachers.

Tutoring sessions are held twice per week, for 1 1/2 – 2 hours each at students' school (with principal's permission), or at a public location within the students' community. We provide all instructional materials which are aligned to the Georgia Performance Standards and the Common Core State Standards.

Call The Tutor Lab at 678-999-2008 for more information about FREE TUTORING!

Program Summary:

Thomas County Schools have always provided afterschool tutoring in some form. During the years between 2002-2005, students at two of our schools received SES tutoring through the system.

Thomas County Title I Schools have been successful in achieving AYP and/or adequate status (staying off the NI list) for several years. This has required targeting our special education population and our minority population.

Afterschool sessions in math and reading for elementary and middle school students will be offered on Tuesdays and Thursdays for 60 minutes. Snacks will be provided before the sessions begin.

Research-based strategies and best practices, including Learning Focused instruction, will be used in the SES tutoring sessions. Each student will have an Academic Intervention Plan (AIP) to address academic needs describing goals, objectives and timelines.

All system facilities and equipment will be available for use. Bus transportation will be provided for students.

Program Summary:

Thomasville Community Resource Center (TCRC) has supported students through after-school and tutoring programs since 1997. TCRC uses research-based Reading/English Language Arts and Math curricula implemented by highly-qualified staff. Tutors deliver small group reading instruction using a standards-based independent reading and accountability system which allows students to read and learn at their independent reading level. Tutors use mini-lessons to deliver grade level content and individual conferencing to build on reading skills students already possess. Math instruction is delivered in small groups using hands-on activities, a highly structured math calculation curriculum, and a standards-based curriculum. The curricula include built-in assessments which determine whether a student has mastered the material covered. Tutors use several assessments to identify strengths and needs of each student and set goals. Parents are updated monthly on progress towards these goals. Tutoring sessions in each subject area are offered for an hour and a half twice a week.

Program Summary:

Our company has a combined effort of fifteen years of tutoring students in the Dade and Broward county area. We have one year as an approved SES provider in Florida having served students in three school districts. Pinellas, Dade and Broward. Our programs community partnerships have been a major component for parents that have transportation issues. We offer home individualized sessions that helps student achievement with smaller immediate, intensive instruction. The effectiveness of our program has been demonstrated with the instructional growth of our students in Reading and Math with a passing rate of 98%. Our success have been with ability to service students in grades kindergarten through eight that are bilingual, Exceptional Students and New English Learners to make achievement gaps of one grade level or higher on the Florida Comprehensive Assessment Test (FCAT) and the Standardized Assessment test with a stanine at or above five. Our one to eight student to teacher ratio has been essential in our student progress. Our direct instruction and think aloud strategies allows for students to become independent and confident learners. Our programs two to three times a week frequency of sessions allows for students to process and progress specific skills. Our reading and math assessment tools help to diagnose and monitor students' gaps in areas not mastered or taught. Once a students ISP goals are established our tutor teaches specific skills, provides ample opportunity for practice and then formally or informally assesses skill proficiency. Our state of the art web-based program helps parents and students log on and view skill mastery and attendance reports. Our company has no prior record as a Georgia SES provider.

Program Summary:

TLL is a privately owned educational support service for students of all ages & all ability levels. TLL teaches students in reading, writing, math, science, social studies, foreign languages, study skills, SAT/ACT prep., State of GA standardized test prep., & school course work. We assess students' abilities by reviewing test records & administering performance based assessments. All individualized program of study is prescribed for each student & includes objectives, academic/GPS areas to be taught, teaching methods & materials to utilize, length of program, & appropriate instructor. Sessions meet a minimum of 1 hour, & # of sessions each student attends is determined by test scores & time allotted. Sessions are documented by instructor & include goals, materials & methods utilized, % of correct responses, & areas in need of continued instruction. Effectiveness with students on statewide tests (i.e. CRCT & GHSGT) is evidenced by students who have improved in abilities, passed State assessments & referrals received due to TLL's reputation. Methods of instruction are in person with degreed instructors assigned to student whose area of need matches instructor's area of educational expertise, utilizing texts, effective methods, & manipulatives.

Program Summary:

Total Learning Concepts is a privately owned educational support service for students of all ages, in all academic areas, and for all levels of abilities. Total Learning Concepts has been teaching students since 1986 in reading, writing, math, science, foreign languages, study skills, SAT/ACT preparation, State of Georgia standardized test preparation, and in school course work. Initially, we assess students' academic abilities by reviewing all school and other test records and or administer nationally normed, performance based assessments. We then prescribe an individualized program of student for each student. The program created includes the student and session objectives, academic and/or GPS areas to be taught, methods and materials to utilize, number of sessions each week, predicted length of program, and selection of the most effective instructor for the student. All sessions meet for a minimum of one hour, and the number of sessions each student attends is determined by the result of test scores and the time frame in which the work must be accomplished. All sessions are documented by the instructor to include the goal, materials and methods utilized, percentage of correct responses, and areas in need of continued instruction. the effectiveness of our program with students on statewide tests, such as the CRCT and GHSGT, can be evidenced by the 23 years Total Learning Concepts has been in operation and the thousands of successful students who have improved in abilities, graduated from high school, passed the State assessments and the number of referrals we receive each month due to our excellent reputation for enabling students to reach their academic goals and potential. Our methods of instruction are face-to-face with degreed instructors who are assigned to a student whose area of need matches the instructor's area of educational expertise and experience utilizing texts, special teaching methods, and manipulatives.

Program Summary:

Tower education is a full service educational consulting firm specializing in the delivery of highly individualized, one-on-one instruction in the comfort and security of the client's own home. At Tower, we provide intense and extensive research based diagnostic testing to determine the ability of each student. We then prescribe academic goals directly aligned with the Georgia Performance Standards for the students to achieve. For over 5 years, our program has accelerated student academic achievement on state, local, and other independent performance tests. Our standard mode of instruction requires rigorous one hour Math sessions twice per week as well as rigorous one hour Reading/Language Arts sessions twice per week. We operate from the after school hours of 2:30pm-8:30pm as well as on weekends and during the summer. After administering a diagnostic assessment, our instructors will analyze your child's results, and create an individualized student plan specifically for your child. This plan will identify specific standards for your child to master. Instruction is highly monitored and feedback is given immediately. Progress is checked frequently and consistently to assure that students are being challenged at their highest levels. Our tutors are highly qualified and our program has a proven track record for increasing the academic achievement of students in low performing schools.

Program Summary:

Tutoring Club in Alpharetta has been in business for over 2 years. The director has over 10 years of experience in education. Our goal is to bring each student to the desired academic level as quickly as possible. Our student will receive individualized instruction from our professional tutors. We work to reduce stress and build confidence by starting each student at a level that he or she can handle and then progressing through the grade levels. We are committed to helping students succeed in their education. We specialize in reading, math (from the basics through calculus), and writing. At Tutoring Club, we use the most advanced curriculum in tutoring combined with a positive with a positive learning environment, resulting in more learning per hour. We maintain 3:1 student to tutor ratios so every student received a wealth of individualized instruction. Tutoring Club tutors strive to pinpoint problems and track required skills to correct them. Our successful motivational system provides a positive incentive for your child to keep trying. All of our exclusive TutorAid programs start with a complete battery of diagnostic tests. We test every academic area required for your child's success in each skill. Then we create a TutorAid program specifically for your child. The RxReading program is balanced and gives your child practice in all basic language skills, including phonics, vocabulary, comprehension and applied skills, such as reading rate and recall. The Amazing Math program testing analyzes the skills your child has missed or not comprehended in school. It allows the students to go back and build the foundation needed for success in basic math, as well as advanced courses such as algebra and geometry. The Write Way program teaches writing from outlining to essay writing. That includes sentence structure, grammar, punctuation and spelling.

Program Summary:

TUTOR ZONE – (a division of The Norfleet Group, LLC)

Tutor Zone has provided SES tutoring in Georgia since 2005, serving over 350 students in Cobb, Gwinnett and Fulton Counties. Tutor Zone provides up to 35 hours of instruction, offered in students' homes, community centers, and libraries. Sessions are offered after school and on weekends, twice a week, and last 60-90 minutes each. Achievement results from 2007-2009 show that Tutor Zone 2nd-8th grade students demonstrated 14.3% gains in Math and 10.7% gains in Reading. We use Triumph Learning's Coach research-based materials for instruction, and to assess students at the beginning and end of our program. Students' goals are established based on their initial assessment results, and feedback from parents and teachers about learning needs. We send monthly/final student progress reports to parents, teachers and the school district to communicate academic strides. Students have access to Tutor Zone's website for additional practice and games. All instructional materials needed are provided for the student.

Program Summary:

Vision Tutoring improves students' test scores, grades, and self-confidence. Our trained tutors are certified teachers and degreed professionals with teaching and tutoring experience. Their creative, engaging lessons help students better understand material and apply it to the real world.

At Vision Tutoring, your child will receive the one-on-one assistance he or she deserves. We ensure comfort and convenience by allowing parents to select in-home or public facility services. Parents also set their own schedule; tutors are available every day of the week including weekends.

Tutors use diagnostic tests to create plans catered to your child's needs. Verbal, visual, and hands-on activities ensure students meet their goals. Books and materials aligned to Georgia Performance Standards guarantee your child is taught skills for the classroom and standardized tests.

Start your child off on the path to success! Contact Vision Tutoring...where we are shaping the world one child at a time.

Student\Tutor Ratio:	8:1
Max. Number of Students (all districts):	60
Min. Number of Students (each district):	1
Cost to District (per hour):	\$50

Program Summary:

For decades West Cobb Preparatory Academy has provided an early intervention tutorial service that promotes literacy to hundreds of inner-city children; of whom would not have otherwise been introduced to a print-rich environment. Statistically this tutorial program is one hundred percent successful by increasing students' grades by at the least one letter grade. Our comprehensive instructional program targets students in K-8th grade and is our current initiative modeled by the recommendations of The National Reading Panel and guided GPS. We are accredited through the GAC, SACS, and The United Way.

To maximize student achievement our facility is equipped with a computer lab and a media center. The computer lab has fourteen computers loaded with "Orchards Teachers Choice Software". Our instructional material is an integration of the GPS student workbooks, and Reading Advantage. Tutorial sessions for will be taught in small-groups or individual, held twice a week and last about one hour and thirty minutes.

Max. Number of Students (all districts):	500
Min. Number of Students (each district):	25
Cost to District (per hour):	\$35

Program Summary:

X-CEL Operating Foundation has provided supplemental education services to students from families of all income levels for over twelve years. The overall success rate, measured by parent surveys, student report cards, and test results is 95%. X-CEL has been providing SES for NCLB in Tennessee since 2004 has been consistently rated "Above Standard" .

X-CEL supplemental education services begin with a skills assessment. Following the assessment an Individual Student Plan (ISP) is developed with goals for improvement. Tutorial sessions are a minimum of one hour in length two to three times a week. They consist of individual/small group instruction, independent work, and skill-building exercises using various forms of technology.

The majority of instructors who perform X-CEL services hold state teacher certificates. They are highly qualified individuals who receive extensive training to ensure X-CEL student success. X-CEL services are performed at school sites and other community locations.

	Cost to District (per hour): \$40

Program Summary:

Our agency has been a successful tutoring entity for the past 15 years. Our success has been featured in the local and print media as well, including the Oprah Winfrey Show. Last year our Agency was the primary SES provider for Early County school district. Collaboratively, our partnership resulted in the district being removed from a probationary status under NCLB. We have successfully delivered SES Since 2004. We administer pre- and post-tests using MySkillsTutor -an online educational tool aligned to Georgia Performance Standards (GPS). The results help chart the students' academic goals, program structure and timeline of progress. The sessions, offered after school hours, are 1.5 hours per day two to three days per week. Our lab has 20+ internet ready computers. We utilize the GPS as a guide in administering the curriculum to ensure our instructions is consistent with lessons students are being taught in classroom. We provide SES to a minimum of 10 students per LEA.

Program Summary:

Youth Enhancement Services Inc. (YES) has been a pillar of the Metro-Atlanta community, providing quality, accessible and effective education and prevention services to youth for 20 years. YES has impacted more than 2,000 youth and their families. We encourages all program participants to build their skill levels, self-esteem, and sense of community. YES was an SES provider for the 2004-2006 school years. During the years that we provided tutorial services, Palmetto Elementary meet AYP standards. We achieved improvement by ensuring that each child was thoroughly assessed. Based on those assessments and staff interaction reports, YES learning coordinators developed individualized plans for each student to improve performance. This custom approach along with our 1:7 instructor to student ratio facilitates an environment of positive growth and academic improvement. This upcoming school year, we will offer two hour tutorial sessions twice a week or a three hour tutorials on Saturdays.

Cost to District (per hour):	\$48

Program Summary:

Zena's House (ZH) is a non-profit organization that provides tutoring, life skills workshops and educational trips to middle/high school students. ZH has over five years of experience tutoring in math, English, reading and helping students develop effective study skills. ZH provides tutoring up to two students at once. Tutoring sessions are conducted once or twice a week, 1.5-3 hours per session. Each student is administered a pre and post assessment to identify challenges and used to measure success. Our effectiveness is based on meeting the goals set with the student and parents, increased grades and CRCT scores. Our instructional materials include Georgia Performance Standards based workbooks and grade appropriate practice material.

ZH monitoring score with GADOE has ranged from 95-100% for the past five years. Further, our 2009-2010 report card states that more of our student's CRCT scores in reading, math and English are higher than all SES providers combined.

Cost to District (per hour):	\$60.00

Program Summary:

Zoom In-Home Tutoring has been tutoring Georgia children since 2001 and providing SES services since 2003. Our program focuses on giving every student individualized one on one attention in the comfort of their home. Each student is tutored based on school's curriculum to improve in class participation and self-confidence. Student goals are set in accordance with pre-assessment results, conferences with parents, conferences with classroom teachers, state curriculum standards, and each student's local curriculum. On average, each tutoring session lasts 1-3 hours and is held 1-3 times per week. Session time and length is customized for each student's needs. Instructional materials are directly correlated with Georgia State Standards. Materials may include lesson plans, worksheets, workbooks, newspapers, current event related topics, etc. The Zoom program is proven to improve student academic achievement. On average, students who complete our program will see an increase in grade level equivalency of 1-2 grade levels.
